Good Night- Sweet Dreams

This is where we left off from the previous book Dragon Tales.

So the end of our story is near. You see the cave is still there but no one is living there. The entire city disappeared into the night. Not a scratch of evidence appears that the huge city even existed. The Dragons and Man became the universe.

When you look at the stars at night you see them twinkling and waving to you. They are saying you are stardust. You are eternal. You are kind.

If you want to see this incredible world it exists inside of you. You have the key to open the door inside of you. The door has always been there.

If each one of you did this peace will be on earth. The dragons are still alive. They exist in your heart.

Remember you are never alone. At times it may seem like it but in reality, you are never alone.

Sweet dreams my friend. May you find your true home.

Now You See Them Now You Don't

Now you see them now you don't. Life is a disappearing act. We come into this world and we leave this world. It seems like a blinking of an eye. For all you kids out there learn to be grateful you are alive.

The dragons and man learned over time to be in harmony with the universe and the quantum field. They lived a life of going from darkness to light. They truly embraced the evolution revolution. What they accomplished was nothing so of a miracle. Granted it took time. Thousands of years. Yet it takes many civilizations millions of years to reach their level of attainment.

People still talk about the lost city of Shamballa. Many people are still looking for it today. Can you imagine that the entire city became one with the universe? That is a major accomplishment.

This has been done many times before. This is the journey in life. The goal is for civilizations to journey from darkness to light. It's a journey from me to we. Kids I even wrote a book about that.

Did you know that the entire universe is aware? The people and dragons became one with the universe. They became the sun, moon, and stars. Yet they were walking around in bodies and carrying on their daily lives. At one point they decided to embark on another incredible journey. We will discuss that in the next chapter.

Many civilizations have come and gone in this manner. The Mayans, the Hawaiians, people on Easter Island, people living on the Azores. There have been numerous civilizations that have vanished without a trace. Now you see them now you don't.

Shamballa morphed into an ideal society. Imagine the changes Zoran and the dragons saw on their incredible journey. They were raised to be angry and to fight

each other and man. They were raised to hoard gold. Quite frankly there had no ethics and moral values whatsoever.

They had the same internal journey that man had. They had the same old tapes that we still have playing today. Mediation taught them to be in harmony with the universe. Granted this took thousands of years but the dragons live for a very long time. So by the time the kids came around and discovered their cave they were enlightened. The rest is history. The world still talks about this lost city and how incredible it was.

Fast forward to today. We are just like those kids. Millions of people are waking up from their slumbers.

Kids, you know that you are the universe. Why do I say that? Because you came from it. A part of you knows you are infinite and eternal. A part of you knows that your true nature is kindness, love, and compassion. Somewhere deep down inside of you, you know this to be true.

I bet at times you think I'm a stranger in a strange land. I bet you feel how did I end up on this chaotic planet. They are still fighting and going to war. Look at all the problems we still have in this world today. Your generation will help transform this world.

This will take time but each generation takes up one step on the ladder to our destination. You see the same goal Zoran and the Dragon had is the same goal humanity has.

When I was young I was told that humanity was going to blow itself up. How's that for being a kid? We would have warning drills where if a nuclear bomb went off you had to go under your desk. I'm not sure if that would have helped or not.

The Mayans had a prophesy that if man lived past 2102 a major transformation would occur. Slowly over time mankind would overcome all the problems that exist on earth today. Everyone would realize that they are a piece of the puzzle much like the citizens did on Shamballa.

In essence, people learned how to be kind to each other. No more bullying. No more people treating other races and religions with total disrespect. Mankind is learning how to be mature.

Kids this are an exciting time for you. It is quite a roller coaster ride. It is definitely an incredible journey.

At times it may seem like a horror movie. At times it seems like a great movie. At times you may not understand the plot. Yet if you turn around in the movie theater you will see light flowing from the projector and displaying images on the screen. This light is your true essence. This light is pure love, compassion, and kindness. In essence, this is your true nature. Just ask any scientist today.

So remember you are not alone. It may seem like it. You hold the keys to discovering your true nature. Remember only you can open the door within.

Where Did They Go

Where did they go? That is a good question. We come into this world and we leave this world. This world is like a hotel.

We come and we stay overnight and then we check out. It seems like our lives are long yet it's only a flicker in time. Imagine the same place they went is the same place we all go. The difference is that they were one with the quantum field while alive. They became the sun, moon, and stars. They went from me to we.

Humanity presently is nowhere even close to this. We are still fighting today. Death is a total enigma. We don't even want to talk about it. Yet when a person dies we mourn and go into so much pain and suffering.

Did you know that all of your ancestors are alive today? They exist inside of you. Their true essence lies inside of you. In some cultures around the world death is a celebration. They do not mourn for the dead. They realize that their ashes are scattered throughout the universe. They have gone back home. Yet we call them uncivilized.

Personally, I think that the western mind needs to learn how to be mature. It's like chaos out there. It seems like we are spinning out of control. The US used to be a leader in the world. At times we are a laughingstock in this world.

Can you imagine the Dragons and humans reached a level of awareness where they became one? That is quite the state of consciousness. Have you seen the birds flying in the sky? They fly in complete unison. It's like they have a united state of awareness. Each one of them is connected. There is no leader yet all movements are coordinated by all. It's like a band playing music without a conductor. That to me my friend is a miracle.

The Dragon world had this type of awareness while alive. They reached a point where they decided to evolve to a great state in the journey of life. You see the journey never ends. This journey will go on for eternity

I think that in the west we can't even imagine a pure state like that. Yet even in that state of oneness, it's only a drop in the bucket of life.

I hope this will give you a small glimpse of where we are heading. Millions of people are waking up. I read an article yesterday where a physiologist describes that her entire practice was based upon Newtonian principles. We only treat people using drugs. We think that is the only way. We think a drug that is matter can affect the body.

On the quantum side, everything is energy. There is an exciting time when energetic medicine is exploding on the scene. Energetic medicine is using the quantum field of intelligence to heal. This is a new and exciting field. Many new modalities are being discovered.

This female realized that maybe just maybe a new dawning of healing is taking place. She has seen thousands of people being healed by these modalities.

Imagine your subconscious is the greatest super computer. You are tied to a state of infinite knowledge and wisdom.

All of us are geniuses. Yet currently we aren't tapped in. Our knowledge is extremely limited. Anyone who thinks outside of the box is considered a whacko. Even when Galileo said that the earth revolves around the sun he was condemned to house arrest. He had the proof yet the Pope said he was a fool.

Fortunately, during this age, the Internet is here. We are all tied together through it. There is a reason why it's called the World Wide Web. It is.

Going back to this physiologist. This appeared in a major magazine. She realized that a new dawning is occurring. The common person can have the wisdom of the universe. In the quantum field, we are all one. We think we are separate. Due to this separation, we think it's us versus them. No wonder there is so much conflict around the world today. We are living our lives in a Newtonian model. The Dragon world learned to live in the quantum state of oneness. Granted this took time but they evolved to that state.

This is where we are headed. Ponder this over. Learn to think outside of your box. You can discover this precious pearl exists inside of you.

They all came back

Kids did you know that they all came back. Every single one of them including the dragons. Time goes by very fast or times slows down. It's all a matter of perspective. It seems just like yesterday that Shamballa existed. The Dragons and humans were one.

They transcended to a state of being one with the universe. They became one with the quantum field. They were the sun, moon, and stars. This is our destiny. Yet for the love of mankind, millions of them came back and are here today. You are probably one of them.

To be honest, at times it's quite scary being on earth. It seems we have to completely rediscover ourselves again. Why do we come back? Now that's a good question. Humanity for thousands of years has dreamed of peace on earth. I would say 99% of the people want this. It's built into our DNA.

Imagine millions of souls volunteering to come back at a certain point in time to jump-start humanity in this direction. Imagine that the earth is not the only place that this has happened. For eons, this incredible journey has existed. Just think that every one of us has been around for eternity. Your soul has no beginning and never dies.

If we are all one who we are then we want to help evolve our fellow man. Just think behind the breath of every person on earth the power of love is keeping you alive. The same power is keeping the universe alive.

So you have come back. When we were young we remembered who we are. Yet the older we got day by day we forgot our true nature. One day we woke up and only a very faint memory existed.

Soon even that memory faded away. You see by this time we are totally engrossed in this world.

For thousands of years, mankind has been fighting with each other. Trillions of dollars are spent on war. Quite frankly this is a waste of money. War has never truly solved any problems.

So we all came back. Even those who think this message is bogus came back. You see this is the greatest time to be alive. We are going from darkness to light. This world is transforming right between our eyes. Yet it seems that chaos is all around. Because this life is a journey it's not a walk in the park. Yet humanity is discovering their true nature step by step along the way. The light we bring dispels darkness. How do I know that is true? Well walk into a dark room and flip on the switch. Presto in less than a second the room is filled with light. In the same manner, the more humanity wakes up from their slumber the more light appears on this planet.

I find it fascinating that humanity can discover its true nature and change the world. For me, it's very simple. When humanity becomes kind the world will change for the better. Kindness is a divine spark from the quantum field.

The more humanity discovers their true nature the more divine memories will float to the surface of the conscious mind. We will truly sense and experience being one. Wouldn't that experience truly transform humanity? We are going from me to we. Just like the geese honking in the sky they fly as one.

So the sacrifice we make is for the benefit of all. I find this video game of life is an incredible journey. Imagine each one of us truly knows deep down inside our true nature. We hope and pray that when we die we go to heaven. By the way, everything goes back to the source.

Personally I think hell is a state of mind. It's not a place or destination. We create our own state of hell. It truly is a state of mind. Mind you it is not a great place to be. Millions of people all around the world are tormented by their own minds.

We are here to help others on this journey in life. A smile is worth more than a thousand words. A smile can light up the world. A true smile comes from the quantum field. It sends ripples throughout the universe. The more we become aware we slowly on a journey from being matter to being an infinite energy frequency. This frequency is our true nature. It is infinite kindness, joy, love, and compassion.

All separateness slowly fades away. This is the new dawning. Each day the journey in life will get easier. Granted we have a long way to go. Yet the sun is on the horizon. Mankind will finally wake up from his slumber. Many people experience nightmares during their sleep while others had peaceful dreams. The light will shine over this land again.

Shamballa Was A Grand Experiment

What would have happened if Zoran and his dragons never left England? Shamballa would have never existed. Sad but true. If Zoran wasn't so inquisitive this event would never have happened. He was considered an outcast.

Even from his own parents, family, and friends. As you know he was cast out of the cave and told never to come back again.

Zoran's Grandmother Josie was the only one in his family to eventually leave and flew to Tibet. That was a couple of hundred years later.

Do you know that so-called misfits are needed in this world? In all society's those that think outside of the box are always ridiculed and mocked. What is it that we refuse to think outside of the box? We love our comfort zones even if they are causing the water to be like a swamp.

What were the chances that the young Tibetan kids would stumble upon the cave? By then the dragons were Dragons masters. Yet they had no desire to teach any humans. Remember in England they had Dragon slayers.

The dragons saw the innocence of the children and decided to teach them. Was this a master plan? Many people have a theory that a butterfly flapping its wings can create a hurricane. Maybe when Zoran left England a series of events occurred that lead to the creation of Shamballa. Over time this leads to the united awareness of the dragons and humans. This leads them to become the sun, moon, and stars.

Just think one small action can ricochet across the universe. Can you imagine that millions of dragons and humans became one? I find that quite fascinating. The story gets even more glorious. The dragons and humans decided to be born again during our present time. The dragons decided to become humans. If they were born as dragons society would have killed them all. You can't have dragons in this world.

So many of them have been born from the 1950's onward. If you are reading this you probably came from Shamballa. Did you know that the entire universe is looking at the earth today? What happens on earth has major effects everywhere in the universe. Earth is like a butterfly flapping its wings. We are on a journey of going from darkness to light.

In the politician's world, they say every vote matters. While your vote counts. Do you choose darkness or light? You can't sit on the fence. Are you thrilled by all the chaos in this world? What makes you truly happy?

Can you imagine a master plan for the planet earth? Could a small band of so-called misfits from England start a grand evolution revolution in the world today? If we all come from the quantum field maybe just maybe we should think this over. You are a precious piece of the puzzle.

How would the world change if we were all kind? Kindness can change all the problems in this world. If you get anything from this book is to be kind. That is the central message. People think that kindness is weak yet it's the hardest thing to master. It's so easy to be angry. Look at the world around us and everyone is flaming each other. Anger is the norm. We have been angry for thousands of years. War has been going on for ever so long.

This is the greatest time ever to be alive. We are going from darkness to light. You are here to make this world be a better place to live in.

The Great White Brotherhood

One of the greatest events in the history of mankind is happening right before our eyes and we were not even aware of it. This world has reached a juncture where we must decide where we want to go.

We can blow ourselves up or we have a few wonderful options. The great white brotherhood is a consortium of beings who help balance the state of affairs on different dimensions.

They have existed for eternity. Many wonderful beings have merged themselves as a single and yet separate conscious. They are both sides of the coin.

They are separate entities yet at the same time, they are a group with a common consciousness. They are here for universal justice. They don't enforce their way on anyone.

But if you want their assistance they will come in any shape way or form. The majority of all our great spiritual teachers past present and future are part of this consortium.

They are here because they love humanity. At this critical time in the history of the planet, we need help. Our government can't solve the problems.

There are millions of people on the face of this planet who are part of this master plan. Some are aware and some are not. We can blow ourselves up in disharmony or we can learn to live in harmony. It is our choice. They will never harm us.

They aim to protect humanity. But it is our decision. Humanity as a whole has to make that decision. Do we want chaos like we have now or do we want a planet where happiness, cooperation, and tolerance reside? I have met many of these beings and they are the most compassionate beings you will ever meet. A lot of them have lived human lives and know our drama.

They learned to transcend this world. Their joy is to assist and teach us ways to improve our lives. They're not interested in changing your religion. They just want you to be a better Christian if you are Christian.

If you are a Buddhist, be like a Buddha. Live in the compassion and tolerance that the Buddha preached. We are all brothers and sisters from the almighty father.

They have been sent here by our father to help humanity. What would this world be like if we all lived in compassion towards each other? We would be in peace.

We are living in disharmony. When a man lives in disharmony his civilization goes down the tube. We have the ability to change ourselves. Each one of us has all the help we need if we request their help.

We should pray and ask for guidance in our lives. Let's stop pretending we know all of the answers. We don't. Help from the entire universe is at each one's beckoning call.

We just have to ask. It's time humanity wakes up. A lot of people think I'm too busy with my life. Well, when your last breath leaves your body

how busy will you be? Let's build a safe place in this world. We all have the same dream.

Little Ricky And Little Johnny

This book is mainly about the divine adventures of little Ricky the dragon. Both little Ricky and little Johnny didn't want to miss out on this grand adventure.

This is a story of little Ricky's journey in life and the friends and family that helped him along. Many of these families and friends came along for the same reason.

Many of them came from the land of Shamballa. They didn't want to miss out on this golden opportunity. They wanted to witness firsthand the transformation of going from darkness to light.

Even if it meant they had to forget their true identity and rediscover who they truly are on this journey. Now that takes true courage. Each one of us has the courage within to rediscover our true nature.

Childhood (House Of The Future)

My brother and I were born on December 24, 1952, in Pasadena Calif. We had an incredible childhood. My Dad and Grandfather owned an aerospace company.

The first house I remembered was near an orange grove. My brother and I would sneak through the fence and walk in the orange grove.

There was a tree house and we would climb up in it. We were probably three years old. Our house was years ahead of its time. My father and grandfather were both inventors.

They developed a house where you could walk in the house clap your hands and the lights would come on.

The outlets weren't on the wall but hidden in the carpets. We had sensors that when it rained the windows would close.

Move the lamp a where and it would light up. 1

Windows would close when it rained. 1

Move to watch us on TV 1

My mom would watch us in the backyard by video cameras while she was cooking dinner. This house was featured in the Los Angeles Times Home section. This was back in the early

fifties..

Steering wheels for kids 1

Floating frying pan 1

In the early 2000's I saw a Burger King commercial where my Mom was making hamburgers. The frying pan was floating in the air. The stove used induction coils. [Check it out.](#)

"House of the 21st Century" has rustic shake roof and board-and-bat siding. Makeshift fence is only temporary

Built for Modern Living

A HOUSE OF MAGIC

By Thomas E. Stimson, Jr.

IN JACK FLETCHER'S new home, the windows close themselves whenever the wind blows hard for more than 15 seconds. They close automatically, too, when a rainstorm starts or when the outside temperature drops too low for comfort.

Guests never trip over the wires to a floor lamp in Fletcher's living room. The floor lamps in this "House of the 21st Century" have no electric cords. Their fluorescent tubes, in fact, could be burned out and still operate perfectly when placed over certain spots on the living-room floor.

Mrs. Fletcher's stove has an attractive hardwood top and she does her cooking over the stove, not on it. A concealed electromagnetic cooking element not only heats the pans but keeps them suspended in the air while the meal is cooking. There's no need for an "old fashioned" metal stove top.

If the children start quarreling in their play yard, Mrs. Fletcher can admonish them at once from the house via a loud-speaker attached to the play-yard wall. She sees the youngsters by means of a television camera that scans the yard area and is linked to TV receivers in the kitchen, living room and master bedroom. These picture tubes also receive standard TV programs.

In the Fletcher house you don't need to press a wall switch to turn on the room lights; they turn on automatically as you

enter a room, then switch themselves off when the last person leaves. This "walk-a-light" switching system likewise rings the doorbell when a visitor approaches and serves as an alarm against prowlers.

To phone his office or various friends Fletcher presses a button opposite the name he desires, then lifts the receiver when a signal lamp shows the connection has been made. The actual dialing of the number is performed by a concealed rotary switch.

One of the fantastic features of Fletcher's

"Window brain" with rain troughs, weather vane and wind gauge, shuts windows exposed to bad weather

Bedroom wall consists of slab doors permanently set at a stagger. Movable glass panes will be between

thus can be simple nonload-bearing curtain walls built up from short inexpensive lengths of material. The wall panels, in fact, were assembled at a temporary factory instead of on the job. They consist of one-by-six-inch vertical stiffeners nailed to two-by-four horizontal spacers. There are no vertical studs in the ordinary sense. Any scrap lengths of wood as short as 29 inches can be used.

This wall core is erected, then building paper and insulation are added, and finally the exterior and interior wall surfaces are applied. In Fletcher's home the exterior consists of redwood boards and bats. Wall-board paneling is used in the interior.

Steel-pipe columns support the roof beams. The beams are hollow and are built in accordance with aircraft design. A typical beam may consist of a two-by-six on top, a three-by-six on the bottom with 16-inch-deep walls of one-half-inch plywood and with an internal wood stiffener every eight feet. One of these beams will support a 25-foot span and can be nailed and glued together "by the mile" at less cost than solid timbers. For some shorter spans two-by-fours are used for the top and bottom of the beam.

To provide privacy, light and ventilation in his bedroom Fletcher used slab doors for one exterior wall, the doors being staggered to create a louvered effect. The space between each pair of door panels contains a narrow pane of glass for ventilation.

Patio areas outside the house have louvered roofs that screen out the sun and yet permit air to circulate. The patio-roof boards are set on edge, in slots, and may be

removed when winter sunlight is desired.

Fletcher's self-closing windows are actuated by a "window brain" located on the roof. The brain is actually a metal box with rain-catching channels on each side and with a weather vane and anemometer on top. Inside the box is a bimetallic thermometer. When bad weather strikes, the instruments actuate an electric circuit. Solenoids beneath the windows trip locks to release springs which close the windows.

Mrs. Fletcher's mysterious stove operates by electromagnetic repulsion. Be-

Wood louver roof over patio provides shade in summer, may be lifted out for additional sunlight in winter

POPULAR MECHANICS

Cordless floor lamp relies upon induction coil buried in concrete slab floor, secondary coil in lamp base

John Campbell shows that fluorescent tube of lamp glows brightly even when lamp is lifted from floor

neath the hardwood stove top are four main lifting coils that also heat the metal pan floating above it. Three adjustable stabilizing coils steady the pan.

To operate his cordless floor lamps, Fletcher buried induction coils at various points in his living-room floor. Contained in the base of each floor lamp is a secondary coil. The current flowing between the coils provides enough wattage to fluoresce the gases in the fluorescent tube at the top.

The walk-a-light switching system throughout the house operates on the capacity principle. The presence of a person's body changes the capacity of a plate

connected to a vacuum-tube circuit. A relay then switches on the lights. The same capacity effect operates the doorbell when a person walks onto the porch. It is used outside the house to operate lights and on a burglar-alarm system.

By the time you read this, Fletcher may have added some other improvements to his house. He and John Campbell are studying the feasibility of an outdoor air conditioner that would keep the large patio areas at comfortable temperatures even on the hottest days. And they are thinking about an invisible ultrasonic screen that would keep flies away. ★ ★ ★

Flue of fireplace, which is below window, is carried under floor to chimney. Heat from smoke helps to warm floor

At that same period, they developed a jeep that you could shoot at the tires and nothing would happen. This jeep could float downstream. It was lighter and got more miles per gallon than the standard jeep.

They tried to get the US government to buy the jeeps but after several years of losing bids, they saw the handwriting on the wall. If you don't have inside connections with the government you could have a futuristic jeep and nobody would care.

During this time they came up with a way to make houses that would cost 1/10 of the present-day house. It was all modular. They could put up a complete house in a week. The trade union was strongly opposed to this.

Consequently, it was never marketed. I guess those early years had an impact on me. I subconsciously adapted to always look towards the future and bring that technology back to the present. One of my first was multimedia.

Even before multimedia was born I had a company with a good longtime friend John Slowsky. We developed a visual database for the real estate market.

You could put in a search for a house and all of the houses which matched the criteria of the house would come up. When you saw a house you liked it would take you on a tour of the house.

This program won awards at trade shows but it was too far ahead of its time. We developed some trial photo database programs for the Department of Justice but lost finally to IBM who bided one dollar for the job.

Our great Dane Carmel 1

One of my first impressions, when I was young, was that when my brother and I were born that I said to him you go first and check it out.

My brother remembers going down a long bright tunnel in ecstasy and then telling me to come down. I remember it was a rush and both of us laughed inside.

When we were young my brother and I had telepathic communication with each other. A lot of people thought we had communication problems because we didn't talk English very well. I remember our state of communication was non-verbal but with thoughts, pictures,

emotions, and experiences. It was like if you wanted to know about an apple and you have never seen one talking was one way to explain about the apple.

A way was to graphically send the experience of an apple. I remember hearing stories about tribes in the South Pacific Islands who would communicate with their loved ones telepathically.

Today we use telephones. Our sense of communication is more physical. It's kind of funny that people think it is mystical when it is probably very natural.

We have simply not used this communication so we forget we ever had this ability. So now we scoff at the idea that man can communicate in ways that we don't imagine.

Jokesters

My brother and I loved to play jokes when we were kids. I remember that one joke we played was on our bus driver coming home from kindergarten.

As the bus driver drove us home, we realized that our mom wasn't home. Usually, when that is the case the driver can't release you.

You have to return to kindergarten. My brother and I didn't want this to happen. As soon as the bus stopped my brother and I ran out of the bus and ran to our front door.

It was locked. So we ran to the back of the house and entered another door. The bus driver was amazed. He knew what happened.

He started to yell "open the door. You have to return to kindergarten. We both made faces. Fortunately, my mom came home and resolved the situation.

When my brother and I were babies my mom put fingernail polish on one of us to tell us apart.

We used this to our advantage growing up. In the fifth grade, we would switch classes for the fun of it. All the kids in the class would get a kick out of that.

Take Me To Your Leader

I remember when I was a child my Uncle took my brother and me to Bob's Big boy for a chocolate milkshake.

The placemats were a spaceman with the words "take me to your leader".

My brother and I were in so much joy placing these masks over our faces.

In one way we knew that we came from the stars and it was really funny to see these masks. We knew that these earth and bodies were stardust and could laugh at the joke. Yet we take this life too seriously.

We think this world is so physical yet over 94 years ago Einstein taught us differently. Yet we continue to live and believe so staunchly in this space-time continuum.

My brother and I knew we were special and yet we knew everyone was special but didn't know about it. I remember looking at the stars when I was a child and I knew that I came from far beyond the universe.

Here I was in a tiny human body but something inside of me knew that my consciousness existed everywhere. I was the sun and the stars.

I knew as human beings we could experience this but at the time our western culture never expressed the idea. I remember when I was probably about 10 years old my yearning for self-discovery began. I began to look consciously for ways to learn about myself.

Whenever I heard the words India or meditation or yoga it would send a chill down my back. I remember trying to get involved with a church but I had a hard time with the concepts.

I felt that life was glorious and incredible. Christianity was trying to make me feel guilty for what 2000 years ago. At the time I had a strong connection with Christ which I still do. It was my own personal and private connection. I felt that religion should be a private experience. I had my own experience with the creator.

At times I would watch the church services on TV but they didn't have any substance. I felt it was a lot of talks and they took advantage of people. I knew at that age if I kept my vision that I would someday have the experience that I was looking for.

I knew the doors were inside of my being but I wasn't conscious of the doors being opened. I knew I needed a direct personal experience with my creator.

My life as a child ran on two levels. I was a happy-go-lucky kid. I loved the world and played to my heart's content. On the other side, my life was very personal.

I wished for the stars and my friends on the other side. I lived in this world but I didn't altogether leave my inner world. I knew there was a purpose to live.

Our culture at that time hardly expressed our desire to become one with our creator. We were taught that when you die you might have the chance to experience your creator. I could never buy that. I knew as

human beings we could have a firsthand moment-to-moment connection with our Lord. It was direct and personal. As a child, I never wavered from that.

At times I would have fleeting glimpses of that experience. I remember waking up and feeling such joy and ecstasy. I knew that in my dreams I went to such an incredible place.

But I didn't have full conscious memory. I knew my friends were looking after me. I felt that in due time I would be shown the way to consciously 24 hours a day to be in that joy.

Rocksteady Freddie

[Purchase Jimmy Cliff CDs.](#)

[Chorus]

You can get it if you really want
You can get it if you really want
You can get it if you really want
But you must try, try and try, try and try
You'll succeed at last

[Verse 1]

Persecution you must fear
Win or lose you got to get your share
You've got your mind set on a dream
You can get it though hard it may seem now

[Chorus]

You can get it if you really want
You can get it if you really want
You can get it if you really want
But you must try, try and try, try and try
You'll succeed at last

I know it, listen

[Verse 2]

Rome was not built in a day
Opposition will come your way
But the hotter the battle you see
Is the sweeter the victory now

[Chorus]

You can get it if you really want
You can get it if you really want
You can get it if you really want
But you must try, try and try, try and try
You'll succeed at last

You can get it if you really want
You can get it if you really want
You can get it if you really want
But you must try, try and try, try and try
You'll succeed at last

[Outro]

(You can get it if you really want) I know it
(You can get it if you really want) Don't I show it
(You can get it if you really want) Don't give up now
(You can get it if you really want) Keep on trying

Once upon a time, there was two twin brother named little Ricky and little Johnny. Little Johnny was a genius in picking up and learning new things. While little Ricky was what you would call on the slow side. It took him hundreds of tries to learn new things.

For example one Christmas morning their wonderful parents presented them both with brand new bicycles. Both of them were so excited. Well, they took them outdoors. Little Johnny hopped on his and immediately started riding down the block. Well, Little Ricky didn't have the same luck. It was kinda funny to see how clumsy he was. He didn't give up. He knew deep down inside he could learn how to ride this. It took him about a month.

The first time he realized that he was riding the bicycle he was filled with joy. He was so grateful. I did t. I did it. I didn't give up.

This incident carried him throughout his life. Every time he had to learn something new he remembered the experience of learning how to ride a bike.

Years later his wife said that he learned things so quickly. Little Ricky just smiled. He knew that life taught him such a precious lesson at such a young age. New give up. Preserve. You can learn anything. It may just take your time.

Follow The Recipe

Little Ricky loved ethnic foods, He was brought up since he was born to eat ethnic foods. He loved them. Yet he never knew how to cook them. One day in high school he enrolled in a cooking class.

He wanted to learn how to cook. To his amazement, he learned that there were cooking recipes that you can follow to make each dish. A recipe usually had a list of ingredients along with the actual step-by-step steps needed to make the dish.

He was so excited. From that precious course, he took he learned hundreds of recipes throughout the years. He took the same concept to his own life. He learned how to use spices like kindness and patience in his life.

He would sprinkle these on his daily actions. He knew that life was an incredible adventure. He adds these precious spices to his everyday affair.

Ponder this over. What spices can you use to enhance your life? Kindness, tolerance, patience. Love and compassion. These are incredible spices that the world loves.

Learn how to avoid the spice of anger, being a bully, and fighting. These never are good in the end. They are old habits from the past.

Saving The Kitten

I was a member of the Boy scouts for a few years. One day I was selling Boy Scout tickets for an event with a friend of mine. We were overlooking the bay.

All of a sudden my friend yells there is a

kitten in the water. I see the kitten and jump in the water wearing my Boy Scout uniform. I get the kitten and return the kitten to its owner.

The owner gives me 5.00 for saving the kitten. The next day at school the whole class is excited that I saved a kitten. One classmate said to the class that I should be ashamed that I accepted money for doing a good deed.

A true boy scout would never do that. I felt so embarrassed yet at the same time, I never knew about this so-called rule. It seems like my classroom friend wanted to taint what was done.

Years later I think my friend intentionally threw the kitten in the water without me noticing it.

The cutest song ever! :33.

When I was in fifth grade my parents took us to Europe. It was so incredible to see the countries that I learned about in school. We saw the ancient coliseum, the Forum, the Vatican, and the catacombs in Rome.

In Paris the Eiffel Tower. We went to French, Italy, and Switzerland. I have incredible memories of that trip. My love for different cultures began to blossom.

Each country was so different and unique. I loved the smells, the food, and the different customs. Europe was so different than life in the states. I loved to see the vast differences.

This impression carries with me today. I love the diversity of life. I love meeting new people, cultures, and different lifestyles. We are all so different yet at the same time, our essence is the same.

Untimely we are the same. We came from the same creator.

The Boat And The Whale

One incident that remains to this day is the following. One day, while we were in high school my dear friend Mark Blackburn and his Uncle Carl, took my brother on a boat ride.

It takes probably half an hour to reach the ocean from where we took off in the harbor. When we got off the harbor we moved left to where we were directly off Big Corona where my brother and I surfed as a kid.

We are sitting there when all of a sudden we feel this tremendous rush of energy with thousands of bubbles underneath the boat. It was kind of scary.

Finally, these huge whales emerge to the surface probably ten feet away. When I saw its eyes it was such an incredible sight. Pure wisdom, kindness, compassion, and supreme intelligence. Today this day probably 46 years later I can still visualize this in my mind's eye.

I have always been in love with dolphins and whales but to see one in the wild like this was truly a gift. I could sense and see the magnificence of such a beautiful creature of God. If he wanted to he could have destroyed the boat but that's not its nature. We need to learn from the dolphins and whales in our lives. They have so much we can learn from.

The seventies

05-02-2021 One Thing Leads To Another

One thing does lead to another. This is an incredible journey. I remember in my junior year at Newport Harbor High an elective class that changed my life forever.

The entire student body had a choice of three or more electives that one had to choose from. Quite frankly I only remember the one I took. The one I took was a three-week Yoga class that took place on our basketball court.

Did anyone out there take that elective? I remember Michael Folk brother of Missy taking the class. The teachers were Ramakrishna Ananda (Graham Ledgerwood) and his lovely wife at the time.

The class blew my mind. It opened up doors that I knew existed yet didn't know how to open myself. It was love at first sight. Yet it was so radical. At that time there was only one yoga studio in our area.

I was 17 years old at the time. Surfing and yoga became my passion in life. Does anyone know how they were invited to our high school? It was extremely radical for its time.

It was like a communist coming to our school and teaching communism. This was 51 years ago. Today the area is flooded with yoga studios. Even my Mom took classes there in the eighties.

Here's the address 445 E 17th St, Costa Mesa, CA 92627 next to the car wash. It has been there for 51 years. After I took this three-week course I took classes at their yoga center.

The incredible wife taught yoga postures and Graham taught meditation. This helped set my foundation for life. I still practice both today. I think I remember Buddy Owens taking both classes.

I don't remember. This series of events lead me to go on my surfing odyssey and

meditation odyssey around the world, especially in India. That my friend is even more of an incredible story. One thing does lead to another.

Swami Hanuman Das

Beautiful song calling upon Sri Guru to come to us. Sung by Self-Realization Fellowship monks and nuns.

18 Travel Around The World

During my senior year, I decided to put off college for a while and travel and surf around the world.

I had another objective in mind all so. I wanted to find a teacher who could reveal to me the experience of my true self.

I had glimpsed in my life of light more brilliant than the noon-day sun. I knew that God was light but I wanted a conscious and direct experience. I wanted tools in my life where I could achieve 24 hours a day connection with the source of life itself.

I prayed to God to be shown. I knew some teachers could reveal that experience and unlock the door. After the door was opened it would be up to me to cultivate the experience. I worked at a grocery store after school and on weekends.

I graduated from high school and went on a surfing trip to Mexico for a few weeks. Before I went to Europe I spent two weeks at a YOGA camp in Nevada City in Northern Calif. I had a wonderful time at that yoga camp.

The owner of the camp was Kryiananda a disciple of Yogananda. Yogananda was a famous Indian Swami who died in 1952. Kryiananda was one of his disciples.

My fond memories were in the temple late at night. I would meditate late at night and would have these incredible visions inside.

I was bathed in blue light. I felt such a relationship with nature. I felt my life was incredible and that everything was being unfolded.

Up to this point in time, I couldn't tap into the mediation experience at will. It was a lot of hit and miss. At this YOGA camp was the first time I was in an atmosphere where people were consciously trying to experience the source of life.

I learned some valuable techniques. I felt such peace inside of my being. My mind was slowly coming down to a halt. It's kind of funny without mediation a human being doesn't realize how powerful the mind is.

I remember the first time I close my eyes and realized a battle was on my hands. It would take patience and work. But it sure was worth it. I spent two weeks there and took a plane from Oakland Calif. to Europe.

I went with my high school buddy Craig Perkins. Craig was a great person to be around. He had a great sense of humor.

We hitchhiked from Germany to Denmark. We were looking for a friend name Carter Robinson. We arrive at the dock where Cater lived and found out his boat left a few days earlier.

The person told us where they might be for a few days. We hitchhiked to this city and found Carter. It was quite a surprise. We stayed for about a week. They were planning to go to Norway for a while. They asked us if we wanted to go but we declined. Carter had a guest named Brad Crowl who was an old neighbor of mine. We grew up together.

After leaving Carter, Craig, and I went back to Germany. Craig took a plane back to the states. Years later I didn't know quite exactly what happened.

On the subconscious level, I wanted to be on my own for the first time in my life. Craig will always be a friend. I haven't seen him for more than 23 years. I took a train to Biarritz France where my adventure began.

During my first week in France, I camped out in the woods near Le Barre (a famous surf spot). Each day I would go surfing.

I met an American named Peter Lingle and we became good friends. He was also a surfer. He invited me to stay with him in his tent. He had a huge tent and was staying in the campground overlooking Le Barre.

He had also a car which helped to get around. Both are us didn't smoke, drink or take drugs. We got some incredible surf. I felt great. We went surfing all over the place.

One of my fond memories was driving to this old bakery in the countryside. The views were incredible. The bakery was the same for

hundreds of years. They had a stream running through which grounded the wheat. The smells that emanated from that place were truly out of this world. I remembered eating these sugar cookies. The people in this part of

France were friendly.

Craig Perkins

Craig and I became friends during my junior year of high school. Craig has a great sense of humor. I remember one time my brother and I went on an excursion to a mountain park in Orange County.

There was this small trail on this cliff. The trail was probably only two feet wide. Well, my brother and I were petrified of crossing this. I remember walking very slowly and being conscious of every step.

My brother John did the same. Yet here comes Craig dancing to the tune of tiptoe to the tulips.

He would kick one foot over the ledge and then do the same to his other foot. It was quite a sight to see.

Tiny Tim - Tiptoe Through The Tulips

Michel Sartre Sastre

The great Tiny Tim.

Craig loved the ocean. He was quite the surf photographer. He had a great camera for his time.

Craig was a kneeboarder. He could ride his knee board at the Newport Beach famous break The Wedge on a big day. I haven't seen Craig in many years.

I heard he is living in Mexico. My brother bumped into him in San Diego in the late nineties. He was in a fast-food restaurant and John

heard Craig's voice. That was a giveaway.
That was the last time we heard from him.

Surfing Experience In France Something Will Happen In India

While I was in France one day I woke up and saw huge waves breaking. The waves were probably 15 feet high. The surfing spot was at Le Barre a famous but now extinct surf spot.

I took off on a huge wave stood up and the next moment I was free-falling down the wave. Back then there were no leases. My board got carried to shore.

Le Barre had a jetty and 15-foot waves were breaking on the rocks. The rip was so strong it was like a river. For the first time in my life, I said "Lord if you exist you had better do something real fast. I closed my eyes and saw an incredible light and a small Indian boy.

The next moment I was on shore. Everybody on shore said it was a miracle. The next day I decided to go to India. As I look back at that experience I feel the hand of grace in my life.

I felt so protected. Here I was only 18 years old but I knew my life was protected. I was about to start the adventure of a lifetime. This was a near-death experience for me.

In the early seventies, I read books about the death experience and my experience closely resembled that experience. I saw a great light that filled my being with bliss that is boundless. I saw a figure which told me without words that everything would be all right.

This experience I knew could be experienced consciously. It didn't have to be a hit-or-miss affair.

I knew a human being could experience the source directly no matter if he/she was sleeping, dreaming, or in an awake state. Man can tap into the source of life.

Five Summer Stories Soundtrack by Honk.

After my surfing accident, Peter and I started on our trip to India. I was very excited. I knew that something wonderful was going to happen in India.

All of my dreams would come true. We drove from Biarritz to Venice where we stayed two days with an Italian friend from high school. We drove through Yugoslavia.

At that time it was a communist country. The people at that time were very suspicious of outsiders. They weren't very friendly. The countryside was amazing.

We were high up in the mountains and could see the Mediterranean Sea. Peter would drive and have this harmonica he would play. He was a good player.

May seem peculiar How I think o'you If you want me, darlin' Here's what you must do You gotta give me 'cause I can't give the best ...

We drove to Athens in Greece. We spent a week there. I loved going to the Parthenon. Here I was in the cradle of such an incredible civilization. I was in awe.

We sold our car and took an airplane to Turkey. When we landed in Istanbul I knew this is where east meets west. This city was so different.

The Muslim mosques were so beautiful. The policeman had submachine guns. I had never seen that before.

I remember staying at this house where a lady came in and said we had better leave because the police were going to raid the place. She said people used drugs and the police were going to bust the place. I felt someone was taking care of me.

I didn't want to end up in a Turkish jail. Especially because I didn't use drugs. That would be hard to prove in Turkey.

We spent a week in Istanbul and then went to Ankara. In Ankara, we had to stay a week because the border was closed.

3:02

The Shah of Iran was having the 1000th-anniversary party for Persia. He didn't want young westerners or trouble to come to his land for this party. I heard that the Shah even built props to hide poverty. I had a friend who went to the party and he said it was quite the affair. They had air-conditioned tents. The Shah spent thousands of dollars.

While in Ankara we saw the Queen of England in a parade. There were thousands of soldiers carrying submachine guns.

After a week the border was opened and we took trains and buses to Iran. It was quite a scene traveling. Both Peter and I carried our surfboards and our packs. The trains were quite dirty and packed. We slept on the floor of the train.

The busses were like trains but they had livestock on board. I was getting quite a lesson on life. We arrive at the capital of Tehran. Tehran was quite a beautiful city.

We found out that a week before a young American tourist died the week before. Supposedly she entered a Muslim mosque and was stoned to death.

The reason was that only Muslims could go inside the temple. I met a man from the secret police.

He came up to me and said that he had killed about 30 Americans this year. In Iran, if they found drugs on you, they would shoot you on the spot. What a way to control the drug problem.

We then took buses to the border of Afghanistan. This is where the scenery drastically changed. I felt I have transferred back two thousand years ago.

The Afghanistan people are warriors. Their culture is the same for thousands of years. We were in a high mountain desert. Everyone carried guns or rifles. This was way before the Soviet invasion. I felt I was in an old Wild West town. There was no law or order. The people

were quite nice. But I knew you didn't want to cross them up. The people in Afghanistan smoked a lot of hash. They used this drug like alcohol.

The whole nation used it. The food was quite good. We took a bus from the border and made it to Kabul. Along the way, we bumped into this Hawaiian named Charley Krusner.

Charley was a great guy and we traveled together. Kabul at this time was a hangout for the European hippies.

The Europeans were heavily involved in drugs. These used a lot of opium. It was quite sad to see people my age addicted to opium.

There was nothing I could do. Many of them simply wasted away. The drug was very cheap and could be bought anywhere. I know a lot of my friends in the states would have loved to be in that environment.

It was an eye-opening experience. For the first time, I saw so many young kids wasted and hanging on to life by a thread.

There were thousands of miles from home. During this time I would meditate each day. I knew something incredible was going to happen to me in India.

I just had the intuition that my dreams would come true. I knew I would meet someone who could show me the way to open the door. I felt protected.

It's a beautiful feeling to know that someone is watching over you. I was thousands of miles away from home and yet I felt great inside. I felt protected.

My main goal was to get to India. Ever since I left France the feeling kept on getting stronger.

I felt such a wave of anticipation that my dream will come true. I had only a short time and it would be shown to me.

I left Kabul and took the Khyber Pass from Afghanistan into Pakistan. The Khyber Pass was used by Genghis Khan. It is one of the oldest trade routes in the world.

Throughout history it has been an important trade route between Central Asia and India. What a radical road. It was all dirt which most of

Afghanistan was.

There were no guard rails and we had these crazy drivers driving as fast as they could down this pass.

The buses were quite different. Each bus would have a different altar depending on which religion they belong to. They would be flowers, incense, pictures, and memorabilia.

We would be driving down this huge mountain on a skinny road. This was the only route from Afghanistan to Pakistan.

First Day In India

My first day in India was incredible. I remember crossing the border. At this time there was a two-mile walk to reach the border check for India.

There were parrots and wild birds everywhere. I felt such a strong spiritual experience. I was home. It's hard to put in words what I was feeling.

I knew something incredible was to happen to me in India. I was looking for a teacher who could give me a practical experience of who I was.

I remembered being checked by an Indian Customs lady who was famous for busting people for bringing drugs into India. Since I didn't use drugs I wasn't worried. I remember such an aura of peace that came over me.

The sun was just setting and the whole forest was alive. Thousands of parrots were in the forest. The smell was like an incredible perfume in the air. I crossed the border and took an overnight train to New Delhi.

When I got to New Delhi I was very tired and exhausted. I heard rumors that the Sikhs allowed people to stay at their temples.

I went to this huge Sikh temple. I asked can I stay here overnight. The man said no but there is a huge festival going on down the block.

This festival is for Maharaj Ji a thirteen-year-old boy who just came back from a tour of the west. I remember 4 months earlier reading about him in Time magazine and from my sister. I was intrigued by how a 13-year-old boy could have such a huge following.

The first person I met was Guy Nouri. He and his Mom came to India to partake in this adventure.

I arrived at the festival site and was escorted to the stage where 1 million people were sitting. It was amazing, a sea of people.

The next thing I knew a young Indian boy walked on the stage wearing a Krishna outfit. He was wearing a gold crown with jewels and a gold outfit. I was laughing and crying at the same time.

Something inside of me knew I was home, that the experience I was looking for could be shown by this Indian boy. Being eighteen years old

I was very practical that I wanted a direct experience of GOD inside of me.

What this young Indian boy said made sense. He said seeing is believing. If I told you an ant was 10 feet tall, would you believe me? But if I showed you seeing is believing.

He said don't believe in my words. Take my experience. See for yourself. If you suites your practice if not go on your way.

At this time of my life, this made sense. I have never heard someone saying I can reveal who you are. All my teachers in my past said to believe and maybe someday you will have that experience.

Maharaj Ji said to take the experience, practice it and let the seed bloom into a fruit tree.

Shri Rudram, an ancient Vedic Hymn by Music for Deep Meditation, Vidura Barrios
4.6M views · 8 years ago

 Music for Deep Meditation

Shri Rudram is an ancient Vedic text and part of the Krishna Yajurveda. It is a powerful hymn in praise of Rudra, or Shiva.

Initiation

The following day I packed up my bags and took a train to Prem Nagar, Maharaj Ji ashram near Hardwar is a small town in the foothills of the Himalayas.

For the next two weeks, I listened to discourses about this knowledge. Something inside of me knew that I was

to receive the experience of a lifetime. I knew the door to my soul was to be opened.

Words are hard to express the feeling that was going inside of my being. I knew that in a short time I would be shown and revealed the secret of life itself.

I knew this experience was real. I talked to a lot of people who had this experience and I could tell and sense that something wonderful was going on.

I liked the idea the proof is in the pudding. I didn't want to join a cult or a religious group. I just wanted a direct and continuous experience of the power that is keeping me alive. I knew through practice this could be achieved.

During this time the war between India and Pakistan was going on. Each night air raid sirens were going on and off in the distance we could hear bombs going off.

There was a general blackout at night. Pakistani bombers were only miles away.

Air raid sirens were heard in the distance. At the ashram, the whole place was so serene while in this part of the world people were dying.

Trains of Pakistanis were being massacred going from India to Pakistan and train loads of Indians were being massacred going from Pakistan to India. Such a dichotomy.

Tommy Emmanuel - Initiation

465K views · 15 years ago

D. Kelly

Another from the Sierra Nevada Centre Stage show in early-mid 2002. Great version this one! Still amazes me what Tommy can

I'll never forget my initiation. There were probably about 20 of us in a small room. Maharaj Ji had initiators who revealed his knowledge.

We were in the room while Maharaj Ji was playing on top of the roof directly overhead of us.

The experience that I had that day still sends shivers of joy just merely the thought.

The first technique the initiator revealed was the light technique. I always knew that human beings could see the light inside. This is an actual experience.

When the initiator touched my forehead I felt this incredible surge of energy. I knew at that point that something incredible was going to happen.

My whole body and soul sensed it. My conscious completely left this physical existence. A golden circle of light appeared. Inside of this circle a brilliant blue star appeared.

This golden circle of light and this blue star were so beautiful. It was probably the most beautiful thing I have ever seen.

Waves of love, joy, and peace were surging inside my consciousness. All of a sudden the star transformed into a ray, a tunnel of blue light that went on infinitely. I merged with the blue ray. It's very hard

to describe this experience. I was at home. The doors were opened. I was given the keys and it was up to me to cultivate the experience.

I have definite proof that we are more than these bodies. All of a sudden the mystery of life was revealed. I knew the secrets behind all religions.

There was a genuine experience that could be shown and experience. Years later I realized that this experience was an initiation into Lord Michael's blue ray. It was the Jacobs ladder. This experience was the ladder to God. To this day I'll never forget this

experience. It gave me practical proof that God existed. I knew it but this was a practical experience.

It was more real than any outside human experience. I knew that my life was on track. I have waited years to go home and I was shown such a glorious place.

When I returned to this earth and regained physical consciousness my whole body was shaking like a duck.

My body had a hard time. Can you imagine being hooked up to the power plant of the whole universe?

I knew no damage was done. Over time I knew that the body was built and designed to handle that kind of currents. Day by day through mediation man can slowly harmonize with these frequencies and begin to vibrate at this frequency.

inner music

Three other techniques were revealed. One was the music techniques. I was shown how to listen to the innermost frequencies of life.

Since God is energy, man can be in tune and listen to subtle energy frequencies. Different religions have different concepts of this experience.

By listening to this music over time man is filled with such joy and peace in his life. The mind slowly begins to slow down. In this state, man gets in contact with an energy frequency that is infinite.

This energy is pure love and bliss. The whole universe is composed of this energy. It was is and will always be.

This is the Word of God. Every major religion talks about the Word in some form or another. There is a very simple technique where a man can be in direct communion with this subtle energy.

When a person first receives this initiation the word is very subtle. The majority of people don't understand the power of this word.

I know a lot of people who took this experience and never really tried it out. Over time I can consciously put myself in direct communication with this Word.

My whole being is instantly filled with such a wave of love and bliss. I'm not there 24 hours a day but I know it is possible. I have had experiences that I was completely taken out of this physical world and taken to a place where there is no time and space.

The only thing that existed was this incredible energy of love. I knew I was at home with my father. This energy exists through all of the creation.

It exists in the manifest and unmanifest. It exists throughout time and space and beyond. All of creation comes from this word. In the bible, in Saint John, the verse goes like this.

In the beginning, was the Word. The Word was with God and the Word was God. Human beings can tune into this experience.

The last experience was one of the living waters or nectar experiences. When a man is in this experience powerful hormones and enzymes are secreted through the endocrine system.

Through the ages, man has learned that he can experience this nectar or living water. Just one drop of this is an incredibly powerful experience.

One drop can take man's consciousness into an altered state. This fluid is very cleansing to the body. When Christ was in the desert for 40 days and nights he lived off this manna.

This experience is energy in its subtle form. It is energy yet it transmutes itself into matter. This experience is very powerful to the endocrine system.

I have had numerous experiences with this nectar. It's probably the most intoxicating drug known in the universe. Unlike a drug that has a side effect, this experience is completely beneficial to the body and soul.

These experiences reveal over time who we are. We are more than our mind and body. We are this source of life.

Each one of us is part of this universal consciousness. We just don't remember it. It's amazing when we were born we came from the source.

Our whole being was this consciousness. Over time we forgot. Years later we have completely forgotten our true existence.

After the initiation, I thanked my creator for revealing himself to me. My dreams come true. I had the tools. Everything made sense to me. I could read the scriptures and understand the hidden meaning. The scriptures were at the same wavelength. I had a lot of respect for the major religions.

Mediation Ganges

The following day I was sitting by the Ganges meditating when I completely lost consciousness of this planet. I saw a light more brilliant than the noonday sun.

My consciousness was flowing into a river of nectar. I felt the whole Ganges River was flowing through me. Maharaj Ji had a beautiful poem by Rumi a great Sufi teacher that sums it up. It goes like this.

There is a palace in the sky without any foundation. A blind man sees a light more brilliant than a million suns. A deaf man listens to the unstuck music.

Castle in the air - Don McLean Original

keyoshei morinaka

This song is my favorite since childhood... http://www.4shared.com/audio/FuRrNjDs/02_-_Castles_In_The_Air_-_Don_.html

A lame man climbs up a well and drinks the nectar and becomes intoxicated. The clincher is only a wise man who understands what I'm talking about.

From then on my life was to change drastically. After my initiation and this experience, my life was never the same. I was shown something so incredible that my focus was on this experience. My whole life from

then on was based on practically cultivating this experience. Day by day I was going deeper and deeper into my existence.

My days in India were spent in meditation and spending time with Maharaj Ji.

Mediation was such an incredible experience. I call it going to the movies.

Day by day I was going deeper and deeper into realms I have never been before. Prem Nagar was such a beautiful place.

I was thousands of miles away from home and then again I was truly at home. I was content and full of such incredible bliss. My mind was learning to focus on something inside of me that never changes that is, was, and will always be.

I was learning how to be connected to that experience twenty-four hours a day. I practiced meditation liked how I surfed with joy and the thrill of riding the wave of life.

To this day I'm still blown away that this experience is lying dormant inside of humanity just waiting to be discovered. We are searching for the jewel and the jewel is hidden inside of each one of us.

Over time it's not all bliss and roses with this experience. I had to face my mind. The mind is such a powerful thing. It can be your friend or enemy.

I learned over time to become its friend. In the beginning, at times I thought I would go crazy. The mind was constantly chattering. I would sit for hours and at times I wanted to get up and just forget the whole thing.

But then I would break through. Then the experience would rush in and completely saturate your being. You are bliss. I felt that I had to break down the door.

Over time I walked through the door and my mind hasn't bothered me in this way since. I'm not saying my mind doesn't bother me at times it does.

But when I close my eyes or put my connection to this Word of God my whole being is filled with bliss. In the beginning, it took tremendous effort to have this kind of experience. In the beginning, you meditate on the experience. Years later the experience meditates on you.

I remember that on a few days before Christmas the whole ashram took a train ride from Hardware to Patna a city in Bihar India. Bihar is one of the poorest states in India.

The scenery was beautiful. We were traveling on this old funky Indian train. We would see swamps that were full of Lotus flowers. Wildlife was everywhere.

Maharaj Ji was having a three-day program. I remembered at the festival there were probably a million people there.

At one point in the festival, the Arya Samaj attacked the festival. I'm not sure how many people died. This group caused a lot of trouble in India.

It was kind of scary to sit on the stage watching fighting only a half-mile away. India was quite a different place. The people were quite friendly. They liked westerners. The Indian people, in general, had a strong conviction for God.

Before leaving Bihar my friend Peter left to go back to America. I loaned him the money which I got back in South Africa. The westerns left in January.

There were only a few of us left. I spent my remaining time in Delhi. I remember I would meditate and go into town. The Indian food was great.

I bumped into the son of James Arness. His father was a famous actor in Hollywood. He

played in Gunsmoke on TV. He had a son (Rolf) at the time was a world champion surfer.

It was quite funny meeting him. I was buying a kilo of cashews for one dollar. I just started talking to him.

During this time Maharaj Ji was planning to go to South Africa. He needed a few westerners to go and help set up the necessary arraignments.

Somehow Maharaj Ji's mother asked me to go. So in early February, we embarked to Bombay.

The Journey With The Girls

I look back now on this incredible journey that I was going to embark on. Let me introduce you to Kali Rodriguez, Kathleen Cook aka Cookie, and Tess Davis These were my traveling partners on this journey. We were going to hitchhike from Kenya to South Africa.

I asked Maharaj Ji if we were going to make it there alive. He said yes but you are going to have a hell of a lot of adventures along the way. To this day I wonder why we never just didn't take a plane to South Africa. But that wouldn't be a journey, would it?

I was just 19 years old. A mere kid yet I learned so much on this journey.

Finding Bombay Ashram

We took a train from Delhi to Bombay. Maharaj Ji was in Bombay for a week. Upon reaching the train station I realized that I lost the directions to the ashram.

I just laughed and knew that everything would be all right. I was traveling with three western girls. I

said let's go hop in a taxi. We got in the taxi and the driver said where you want to go. I said we will direct you.

Bombay is a huge city. None of us have been there and he couldn't believe it. But he did as he was told. I close my eyes and received directions on where to go. Left-right etc.

After about 45 minutes of driving, I told the driver to stop. We got out of the car knocked on the door and walked right into the ashram. I never told Maharaj Ji how we got there. It was just a matter of fact.

The image shows a YouTube video player interface. On the left is a red album cover for Jefferson Starship's 'Red Octopus', featuring the text 'JEFFERSON STARSHIP' at the top, a central octopus logo, and 'RED OCTOPUS' at the bottom. A '6:55' duration indicator is in the bottom right corner of the cover. To the right of the cover, the video title is 'Jefferson Starship - Miracles (Official Audio)', with '11M views · 5 years ago' below it. The channel name 'RHINO' is shown with a verified badge. A description line reads: 'You're listening to the official audio for "Miracles" by Jefferson Starship from the album "Red Octopus" (1975) Subscribe to the ...'

Asokananda Incident

While we were in Bombay one day I was in Maharaj Ji's room when all of a sudden he got off his bed stood up and started to wave his hands

towards one of his Initiators Asokananda. The hair on his whole body stood up. It looked like he put his hand in a light socket. He was yelling please Maharaj Ji, stop it.

After about 20 seconds Maharaj Ji's hand fell to his side and Asokananda was back to normal. Being an eighteen kid that I was I said Maharaj do you want to zap him once more?

Maharaj Ji said sure and for just a fraction of a second, he raised his hands and put electricity back into him. Maharaj Ji was electrocuting him. We all laughed.

This was the first time that I spent close time with Maharaj Ji. There were only a few westerns there. It was so beautiful to play with Maharaj Ji and at the same time have such great respect for him.

Getting Drunk On Water

Before we left for Kenya Maharaj Ji asked us if we wanted any holy water. Holy water is a custom in India where the master places his foot in the water.

I had only a canteen and Maharaj Ji placed his foot inside of the canteen. We all laughed. The next day we headed out for Kenya.

On board, the plane was Kali, Kathleen, and Tess. These were the three girls I traveled with from New Delhi. On board the plane we drank the water from the canteen.

All of us got rip-roaring drunk. I've been drunk before that one or twice but this was a drunk of joy. We all somehow managed to saunter off the plane.

We spent a few days in Nairobi. Tess's parents lived on the outskirts of town. Kenya was an incredible country. Parts of it looked like England.

We relaxed for a few days. I remember one moment at Tess's house. I was meditating in the backyard with I opened my eyes and saw Maharaj Ji standing there.

He was laughing and laughing. I remember in Bombay asking him if we were to make it to South Africa. We were going to hitchhike from Kenya to South Africa. He said we would but we were going to have a hell of a lot of adventures along the way.

Travels In Africa

We slowly started to hitchhike from Kenya to South Africa. I have memories of our first night getting a ride and being on the Kenya plains in a horrendous rain storm.

Here we were in Africa and the only houses around were grass huts. It was quite an experience. I remember one border crossing between Kenya and Tanzania.

The Tanzania border official became very upset because we didn't have a visa to enter the country. Kali became very upset and told the guy off.

I was receiving an intuition to be quiet and to respect this officer. They pulled us into a room and this officer just started to yell at Kali.

All of a sudden he stopped and said "I am about to throw both of you in jail but because pointing to me you have been such a gentleman I will let you go. Another lesson in intuition.

In Tanzania, the Chinese were building a railroad.

Thousands of Chinese truck drivers were passing us by. They all had the same expression on their faces.

I remember one ride where Kali and I got picked up by two intelligent black Africans. We got in the car. After a few hours of driving, they got out of the car and shot two cows with a rifle.

We thought we were next. They got in the car and they said: "O we just shot two elephants." We agreed with them. We knew we shouldn't cause any conflict or maybe we would be next.

I remember one night we were in this small jungle town in the middle of nowhere. I was eating this soup that was full of mosquitoes.

The air was so thick of mosquitoes that mosquitoes were falling into my soup. It was quite the scene. It was super humid and hot. I was lucky not to get malaria.

Hello, guys. Thanks for all the views!!!! I'd like to apologize for the advertisements that are being showed at the beginning of th

We finally met up with Tess and Kathleen. We switched partners and I hitchhiked with Tess to the capital of Zambia. We all decided to meet there. It was quite an experience.

We arrived at Lusaka got out of the car and moments later Kali and Kathleen got out of the car. We were all standing there when this Zambian came up to us and offered us to stay at his house.

We went to his house a dairy in the country. His name was Gary. We told him what we doing and where we were going. At this time our money situation was zero.

A few days before we ran out of money. I was pleased because I would see that everything would be taken care of. Anyway, Gary's uncle was president of the national TV in Zambia. He could arrange a television interview for us.

The next day around 5:00 after the news we were on national television. I only wore my Indian whites and no shoes. We had a beautiful interview for about one hour.

The interviewer was very sincere. There was no sarcasm in his voice. The people of Africa were simple and open people. The TV station received hundreds of phone calls asking "what was that?"

The response was so great that the next day we were asked back to the TV station. The same phenomenon happened. The Indian community heard us and invited us to their community.

Every day we would give discourses in their temples and home. We were treated like Kings and Queens. They would give us money, watches, and clothes.

We had probably at least 6 major meals a day. It is a custom to accept food at someone's home. Each one of our guests would provide a huge spread.

I remember one Hindu temple where the priest would take down Krishna's picture and put up Maharaj Ji's picture. This is like the Catholic Church taking down Christ's picture.

I remember seeing Victoria Falls like it was yesterday. There were hundreds of monkeys in a forest canopy overlooking this incredible waterfall. Kali and I stood on this bridge and a 360-degree rainbow encircled us. To this day I can visualize this waterfall.

Well, we finally made it to Johannesburg. It was quite the adventure. Somehow we managed to get a visa for South Africa.

I spent about two weeks in Johannesburg resting up and living in the Indian community. There were a lot of westerners, black and Indians interested. I was sent to Cape Town to prepare for Maharaj Ji's visit.

In Cape Town, I stayed in the house of Nigel Fairhead. Nigel and his wife were great to me.

They live in an old 17-century church. Cape Town was a beautiful place to live. The cape is surrounded by the Indian and the Atlantic oceans.

Nigel introduced me to a fellow surfer Chris Parker. We became great friends. I hadn't spoken to him in over 40 years until recently. We carried on our conversation as if it was yesterday.

Talk Story with Nigel Fairhead
Fletcher Soul Traveler

My days in Cape Town were spent in preparation for Maharaj Ji coming to visit. I would go to the university there and give talks about self-knowledge. The university and student body provided me with a classroom where I could speak. It's kind of funny I was only 19 years old. The university was real receptive and curious. When Maharaj Ji

came to give a talk at the university the whole student body showed up.

I had a great time with Maharaj Ji in Cape Town. There was only one other westerner beside me. It was Gary Girard and he was traveling with him.

I remember at one point I was in Maharaj Ji's room. We were alone and he was talking about his father Shri Maharaj Ji. I remembered asking him questions about his father.

Maharaj Ji gave me this magazine that came from England. It contained some of his discourse in England. On the back page was this picture of him. He gave me this magazine and signed it Saint Ji Maharaj. On the

back of the magazine, he drew a map of his old school in Dehra Dun India.

One day we went to the Cape of Good Hope. It was an incredible sight to behold the Atlantic and the Indian Ocean merging at one point. I remember at one point Maharaj Ji and the group had a race to get to the top of these stairs.

I couldn't believe how fast he ran. He beat all of us by a long shot. I thought with all of my training I was fast. When I got to the top I was breathing quite hard.

Maharaj Ji was hardly breathing. I remember at one point a South African photographer took our picture. There were three of us Maharaj Ji, his longtime bodyguard Bihari Singh and myself.

We placed our arms on top of each shoulder (just like kids) and said cheese. It was a great moment.

The following day we flew back to Johannesburg. I remember Maharaj Ji passing out Nestles white chocolate on the plane.

We spent another two weeks in Johannesburg. Every day we would have people of all races colors and creed come to the house.

For some reason, the South African government didn't do anything about it. We had westerners, blacks, and Indians all coming together.

There was such harmony. I flew with Maharaj Ji back to England. I remember the day after I got back Maharaj Ji was speaking to a large group of people.

I walked into the room and he stopped speaking and turned to me. He said right now my body is in England but my soul is in South Africa.

It was a remarkable statement. The South African people captured his heart.

The following are people I remember in South Africa.

Milky Cole	Gary Girad
	
<p>I first met Milky in India in 1971. He was quite the divine character. He was brewing laughter and humor. Milky was about ten years older than me. I was just a kid 18 years old. We spent time together in Africa. A few years later Milky comes to Portland Oregon for a month. Great guy. He enjoys the adventures in life. He has a great story to tell.</p>	<p>While I was in India Gary told a story about how he was searching to find himself he bumped into a sadhu who didn't speak a word. His name was Moni Baba. Moni Baba told him to go see his teacher. To make a long story short he did. Gary was one of the first westerners to be introduced to Maharaj Ji. For Maharaji's birthday, the entire ashram took a train from Hardwar to Patna. It took around three days. In Patna, we bump into Moni Baba. It was quite the encounter.</p>

Bruce Sirota

Here's another story of the web tying us together. I met Bruce in India. Then in South Africa and finally in New York City. Bruce loves to sing. He has a heart of gold.

Sandy Collier

I didn't know Sandy very well. Yet I sure bumped into her. I first met her in India in 1971. Then in South Africa, England, Denver, and Florida. Sandy is an incredible cook. She was exceptional at Indian cuisine which was virtually unknown in the west. At that time she was cooking for Maharaj Ji. I love to read her Facebook posts.

Larry Rosenfeld	Nadine Sirota
	
<p>Larry is Nadine's brother. Presently he and his sister are living in Israel. I didn't know Larry as well as his sister yet being on Facebook we have communicated numerous times. A great heart he has. He is also an artist.</p>	<p>Nadine was a very kind soul. I met her first in Johannesburg. Three years later she was living in New York. Bruce and Nadine invite me over for dinner. We catch up on old times. We are both on Facebook so we can see what's going on in our lives.</p>

Nadine

To be honest, I didn't know. Nadine very well.

Yet this is a story within a story.

There is a web of love tying us all together.

I first met Nadine in South Africa 50 years ago.

You can read more about my journey to South Africa in a couple of my books.

Yet, there are certain people as soon as you meet them, who become your best friend.

Nadine was one of those rare and special people.

She made everyone feel that they were her best friends.

How is it possible to do that?

She was just introduced to how to meditate

Now, this is where the story is full of synchronicity and surprises.

Nadine's husband at the time. Michael was the one who took the picture of me, Prem, and Bihari Singh on top of table mountain in Cape Town.

When I return to the States he sent me a photo.

Fast forward a few years.

I was living in New York City.

One day my dear friend Bruce Sirota walked into a hall with Nadine.

Mind you, this was probably around 5 years since I have last seen either one of them.

They were married at the time.

Both of them invited me to their house in Brooklyn for dinner.

Years later I still remembered the hospitality they gave.

I first met Bruce in India months before I traveled to South Africa.

I remembered him singing the poem creator of all which Prem wrote around when he was 8 years old.

Each time he sang that song I was mesmerized.

Yesterday I was talking to my brother John who lives now in the Netherlands.

I told him about Nadine's passing.

John reminded me that his wife Hanalee met Bruce in England before Prem even came to the west.

It's a small world.

John also reminded me they knew Bruce and Nadine in Southern California.

There is a web of love tying us all together.

Sometimes it takes 50 years to see it.

Reading the post from Bruce and Nadine's brother Larry many people wrote beautiful things about Nadine.

We cherish the lives of those who no longer are among us.

We come into this world and someday we will leave this world.

That is the unbroken law.

Yet while alive we can connect to that thread of love tying us all together. consciously.

My condolences go out to all of Nadine's family and friends.

A precious jewel no longer is here yet her essence will always remain.

No one will ever truly understand death yet we can connect to that.

Jewel, that lies within.

Wow! We are alive.

I hope I have in some way conveyed my feelings about her passing.

We should treasure all those who are among us.

That would probably be Nadine's message if she would give it today.

Nobody knows when death will be knocking on your door.

Yet one can discover the jewel that goes beyond life and death while we
are alive.

This Jewel exists inside of us.

Chris Parker

I first met Chris in Cape Town South Africa over 45 years ago. We became instant friends. I introduced Chris to meditation.

Now if you like to meditate and you're a surfer you're on the same wavelength.

Chris and Nigel are like brothers to me yet I haven't since them since my time in Cape Town. It was until recently did we hook up again. We discovered each other through Facebook.

All three of us would have skype sessions. Nigel in South Africa, Chris in Australia, and myself in good old Kansas. We would talk at times for three hours.

Now that's a good use of technology. It seems just like yesterday. Now I've known them for probably less than six months yet the connection between all of us is like brothers. I find that fascinating.

Complete with unaltered audio. It describes it self.

Ancestors

We are all shaped by our family. I feel so fortunate to be blessed to be born into this family line. My parents and grandparents raised me to where my life is today.

I was nurtured in love and consideration of others. I learned how to respect life and respect all human beings. The sense of adventure and the sense of learning with joy were instilled in me. Life was incredible.

At a young age, I was introduced to seeing the future and bringing ideas to the present. I was only 2 years old when my Dad and Grandfather built the house of the future.

At me young age my Mom and Dad introduced me to ethnic cuisine from around the world. To this day I love trying out different and new cuisines.

My Mom gave me the sense of travel. She loved to travel and that was instilled in me. I learned how to appreciate different customs, ways of seeing things, and being open to life.

Life taught me to appreciate each country and value its essence. My Grandmother Josie taught me the love of God.

She would always say that God loves you. Her mother was friends with Mary Baker Eddy the founder of Christian Science. My brother and I loved being in her company.

She was a joy to be around. She played the piano and sang many wonderful songs to us. During the winter she would go to the Palm desert and bring back pine nuts and fresh dates.

She had a juicer that was handed down to my brother after many years of use. My Grandfather Cliff's hobby was rock collecting. When they came to visit he would do a slide show of his current trip. My wife Barbara would have been great friends if he was still alive.

Rose Parade Queen 1

As a family, we would love to visit my grandmother and grandfather in Santa Barbara. I remember going to horse shows and going to the Elvis Presley movies.

My grandfather would make the world's best enchiladas. I have the recipe on my cooking site.

This dish is over 60 years old. I had many incredible times being with them. During the holiday both sides of my grandparents would come and visit. I loved the sense of family in the air.

Mom and Dad. House of the future. 1

My brother and I will always remember the times my Dad would drive us to go surfing. We would get to the ocean very early in the morning.

My Dad would drive us to Big Corona and we would surf until noon and then we would paddle through the harbor for an hour.

My Dad suffered a stroke and was in a coma for a month. When he came out of the coma he was changed completely. For the first time, I saw that he knew it was a miracle to be alive. His entire outlook on life changed.

He realized that life is precious. He lived another 10 years after that. He saw that he had a golden opportunity to experience life to its fullest.

My Mom has taught me to see the bright side of life. If you are down in the dumps she taught me that only you can pull yourself up.

Attitude is everything. She taught me to enjoy the adventure of life. I gained so much from her and her way of thinking.

She taught me not to hold onto the past and to forgive what others have done to me. She has a great sense of humor which I love.

What can I say about my twin brother John? We came into this world together and are such good friends. We have the same path of self-discovery.

Both of us have been meditating for over 45 years. He has discovered a passion for writing music. In the past 4 years, he has created over 1000 songs.

He creates songs about life and the incredible journey of life.

My daughter Aleia has really become an incredible person. She is kind, full of wisdom, and loves to help people. She is deeply spiritual without any pretense.

She has a great heart. I'm tremendously proud of her.

My daughter Leilani has bloomed in the last 10 years. She got married to a wonderful man named Lowie. He is from Egypt.

They have 3 beautiful children. I love their family. They are an inspiration to me. Family truly is the backbone of life.

[Lord Michael](#)

When I was living in Miami Florida I had this incredible experience. I was with some friends and we decided to try to channel an entity. I have never tried it before.

Anyway, I closed my eyes for a few minutes and I felt the strong presence of this being. It was the same feeling if your eyes were closed you could sense the presence of someone walking into the room. This being was full of love and joy.

This being was Archangel Michael. Michael was teaching was completely different than all the others. It was more on the subconscious experimental level.

I could feel his presence enter my body and I was lifted and shifted a few degrees. I was still in my body but my consciousness was altered. His teachings were not of words but experiences.

I felt very close to him. I felt he was a very good friend of mine. Through him, I had the experience that we part of the same energy pattern.

There are infinite energy patterns in the universe and we were part of a particular stand.

Through him, I realized my name was Micah. I realized that I was something of a newcomer to this planet. I learned I haven't been here for 34,000 years.

I realized that the reason I loved meditation so much in the early seventies was I loved the experience of being infinite. For thousands of years,

I have existed without a body. I existed as energy. Michael reminded me of this. Both of us were trailblazers. I didn't channel Michael for very long.

At times I still call him and talk to him but mostly I learned on my own. I know people probably have a hard time accepting channeling but think of channeling as a form of TV or radio. By simply tuning one's mind

Man can tune into a particular frequency. There is nothing magical or mysterious about it. Can you name any sacred book which has not been

channeled? God didn't write the Bible. People did. The scripture was channeled.

Do you think the message only came 2,000 years ago and it is no longer available today? We all have the capability but have forgotten how to use it.

Oracles have been around for thousands of years. Just recently this phenomenon has taken place inside our society. From what I have seen and experienced we have help from the other side to assist us in our transformation.

So many books have been around recently talking about Angels appearing when a man dies. Isn't it about time we have that experience daily in our lives?

Man has the capability. If we learn how to live in harmony we can be open to it. Western science has a hard time buying the facts. We need such concrete evidence. But tell me what happens when your breath leaves your body. You are dead. Can you bring it back? Try to find out the secret while you are alive and your life will be transformed.

Micah

The following are excerpts from a conversation with Zoran. This was a wedding present. Barbara and my daughter Aleia were present. The date was May 20, 1990.

Richard - Could you please tell me about Micah?

Zoran - What desire you to know?

Richard - What do you know about the guy?

Zoran - what will be a more specific question?

Richard - Who is Micah?

Zoran -Who in terms of the whole?

Richard - The whole (yea)

Zoran- Let me see if I can give forth words. No, you what is called universal core. Essence indeed. There are some beings that direct specific energies at specific times. They are not confined to what be termed position as in the hierarchy. This being is not confined. Does this make sense to you?

Richard - yeah

Zoran - It is beyond what you would normally think of as the whole
- Like a radical

All - Laughter

Zoran- this being is allowed to move about and to do things that perhaps you might say this is against the rules. This is outside of what I've known, learn or heard. What desire you from this being?

Richard- well that name has been coming to me allot. I'm just trying to go to the mystery of it.

Zoran-Wondrous being Richard. Contemplate you that not all beings in this universe at this time not only came from this universe say I. Some come from essence beings that are not confined to what you consider to be the whole. Indeed. Now how do you think you are?

Richard- Probably that guy.

Zoran- Indeed. And it's radical. And it is not confined. That is why I say to you. Say a normal being walks through a gateway. If by going through a gateway the rules are set. You have come to an understanding within yourself, which is termed your growth. The rules are no set. Only by you. See you

Richard - Yes

Zoran- There is a troop of us here. See you.

All - laughter

Zoran- You know this thing already.

Richard-You mean the cosmic jokers?

Zoran-Well it's something like that. Know you they are the ones who bring about balance. Because what is termed their freedom to move outside the rules. Beyond space-time. Without a judgment or a thought of this or this is that. Indeed. The understanding is within the heart which is greater than either one. Do you use this name?

Richard-I use it to myself sometimes.

Zoran -and

Richard-I have been using this name for two years now.

Zoran-It is an important thing that you not only acknowledge here (pointing to my heart) but you have some say here (physically) that you acknowledge it to your senses. Understand.

Richard-Huh Huh

Zoran-Desire you Richard to speak what is termed the public.

Richard-Sometimes. I know I have a mission here.

Zoran-I'm asking this question for you to contemplate whether you desire to be what you call the front.

So you are seen. Or do you desire `to be from behind?

Richard-Well a lot of times I can be behind the scenes. I don't want to be famous. I have no need for that.

Zoran-This isn't about need. It is a matter of choice.

Richard-Well let's put it this way whatever I can do to help.

Zoran-I will say this thing to you. It is not that you have to do this thing yourself. You have the capability of creating a being to do that thing for you. It is a choice. However, there are some things that would certainly be different if it was you. How many beings are going to channel you?

All-Laughter

Zoran-See you. It is a part of directing the truth. Understand. And that would be grand humor. But what is termed what I said to this

wondrous being (pointer to my wife) this secret, this secret that you are present? Know unless you want to share that. If it is not then the expression that comes forth will create havoc for you.

Richard-so what does it mean to go public?

Zoran-It means you are a love giver. Going public. Many things are changing as you know. Allot of what has been spoken before as the foundation that yourself and others laid are begging to come together. There is what has been termed some confusion and what is called frustration from times past. All this time has passed and I have given up hope.

All-Laughter

Zoran-what do you do know? Do you look at it and say I could get burnt. Now you are more cautious of the picture. This is humor. Now what you have created you think will bite you. (Laughter) give you this thing teeth. Know you what you termed hobby. Recreation.

Richard- yes

Zoran-For you this thing of public, sharing your essence is recreation. That is true.

Richard-yes

Zoran - Feel you what is termed guilty. Indeed that it is recreation and so easy. So how do you rectify this thing Richard within side of yourself so there is no guilt? Look you around and see beings who have a lack of understanding, who are in pain, who are in poverty, who are all these things and mostly in ignorance. And you have so much and so easy. See you.

Richard-Yes (softly)

Zoran-Number one you must let go of the guilt or when you touch it, it will bite. Understand. You must love here yourself (pointing to heart). And be in love with yourself and no other comes before. If you don't it doesn't mean that you will not (within this whole that is here) It means that you are in honor of the being that you are. You cannot maintain the balance within yourself or perform your service in your easement and your joy and your simplicity. Indeed if you do not do this thing for yourself.

Richard-yes

Zoran-I can skip across the planet because I can. That's it. Indeed

Richard - (Laughter) Indeed

Zoran-If I was to say to you this has nothing to do with earning this reward, earning this thing, this greatness. That happened a long time ago. Desire you another ceremony.

Richard-(Stopped for a moment and wondered what he was talking about. Then I remember the ceremony I had on board his mother ship) Yes Yes Yes

Zoran-That is why I say to you very important it is up to you. You make the moves now. Think you can live what is termed your life and others can channel what is you're called your being. It will all work out fine together. And be that this thing is occurring and you be more aware of this more and more. Know you what happens to a being who is in a position to teach and that is not the greatest word. You go around pretending you don't know.

All-Laughter

Richard-Yes

Zoran-So what now are you going to do? You aren't satisfied with that. Be that the true.

Richard-Yes that's the truth.

Zoran-You must contemplate this thing. What are you willing to do for yourself? For your joy here.

Richard-Now let's say I did want to do this thing. What do I do?

Zoran-You mean where do I start?

Richard-Right

Zoran-You start from here (pointing towards the heart) and you start from the people who are close to you. Start with letting go and letting it be. Simple. It doesn't require letting go of the other things that you have moving. Indeed. A being who is capable of stepping out of space-time, of making the rules can certainly do more than one thing. And in all honesty, if you did not do more than one thing, you would be very upset with yourself and very bored.

All-Laughter

Zoran-Allot of the beings has not allowed the foundation support to be present. I am not just talking about funds. I am talking about people. The other beings who are meant to be there are not there. Both of you should sit down and make a list of beings who come to mind. Make a list of what each being means to you. It does not mean that because a person is present in your life that they belong on this list. This list is those people which support you.

Honesty. Indeed. This is the only way you will have peace. I will say again the group of you shall do great things. Know those adventures that you see in your heart. Indeed those great expeditions. Those will be present. There are some things that are laid away. It will be one of those in search of episodes.

All-laughter

Barbara-A quest

Zoran-They are not a grand thing.

Barbara-That sounds like fun.

Zoran-There are a great many things to do. The public is beginning to come to a stage where they are awaking. They are asking for many things. Many of those beings who were awakened and being awakened were discouraged. Many have fallen by the wayside. They don't have the courage and the energy to stand forth again. It is up to you (group) to stand and talk to the public. In truth, it was always very few. Indeed. Let's put it this way God blesses those who have taken the job and taken all the dirt.

All-Laughter

Zoran-that would be grand. Is it not. That was a wise creation in all of your parts. See you it now indeed.

Richard-What is the relationship between Michael and Micah.

Zoran -Say you I this. It is for you to tell Michael. Understand. There is a profound respect there. You must come to an understanding of your being. It is like this being which is called earth which is a very small planet in a very large number of planets, indeed in a vast system of universes, you have not come from here. Never ever think you have. Be it if you were to come forth to this being it would be like your being was honored. Understand. There is great love there. Know you that all those beings who are familiar with the earth are very blessed with your presence. They honor indeed that this radical group is here. It also means there have been great growths. I might say this as well. If there were this small thing that needed to be done and let's put it this way the gods that be, greater than you have contemplated God at this point. , decided that they wanted to directly check it out. Do a little something. Do you have a good scenario of the situation? I notice that you look at your body, this body physically and you say look at this the hair is turning gray, there is a little flab over here, this and that. Would God choose this? Indeed. This is not my picture of a vehicle that God would use and beyond what I have contemplated God. Know you that it is perfect. Were it any other way it would not be in balance. It would not be even the smallest possibility of being seen here at all. Understand. If it would be so different by standards here, and so obvious and so beautiful all would take away from it. Understand.

Barbara and Richard-Yes

Zoran-It would be a fearful thing, not a grand thing.

First Time Meeting Zoran

Richard, Makara and Barbara 1

Let me introduce Zoran. Zoran is an entity who is known in other dimensions as LOGOS. Logos on this planet came from the Greeks which means Word or Power. The Bible talks about LOGOS as the word.

In the beginning, was the word and the word was with God and the Word was God. Zoran was the personification of that word. The first time I meet him was in Phoenix AZ. A few of my friends saw him and said I might like to see him. They said he was different and like to teach with toys. Zoran is channeled by MAKARA.

When he comes into her body he takes over much live Mafu. Anyway, we arrive late to the hall and I see the program is started. From the loudspeaker, I hear a voice that sounds like Mafu. I am thrown for a loop and ask myself "why is Mafu tape being broadcasted through the sound system."

I sit down and see that this voice is Zoran. I loved the way Zoran was. His whole teaching was through games and laughter. He had all these stuffed toys that he would hand out.

At one part of the program, he started to pull out people from the audience. He pulled me out and gave me an orange ball. He then proceeded to ask each one of us what this toy means to us.

When he came to me he asked me about the orange ball he gave me. I told him that orange represented collagen the substance that ties the cells together. Without collagen, the cells would fall apart.

This ball represents the life force that keeps the entire universe together otherwise it would fall apart. He just laughed and blinked his eye and said a good answer. That night I was very intrigued by Zoran. I knew that we were best of friends and I wanted to talk to him personally. The following day a meeting was arranged.

The first part of the meeting was spent in laughter. People outside the room said it was like an auditorium of people laughing. There were only 3 of us. At one point Zoran said if I laugh anymore I will have to leave this physical body. It will cause damage to her body.

At this time the tone became more serious. I learned that I was a student of his on a planet called Nucleus. This school was learning about the ways to split open the atom using one's mind. This school was built on practical experience. It was truly a mystery school.

Makara and I were both students in this school. Zoran told me many wonderful things. We became really good friends. At all of the seminars, he would always call on me. I became a friend just like in the good old days.

I remember one day he asked me "What do you think about Women?" Well, I said that I want to solve the mystery. He said that someone special was going to happen and that very soon I would meet the woman of my dreams.

The next night I had a dream where I meet my future wife Barbara. A voice came to me and said when you meet this person you should get to know her. A month later I was staying at a friend's house when Barbara walks into the house. I

recognize her at once. I played it quite cool because I knew that destiny would be played out. The rest is history.

Zoran taught me a lot of techniques for getting in touch with himself. His whole style was through laughter.

He said that laughter and joy create such a frequency that it just sinks in subconsciously. He had a great analogy that when you go to the bathroom you don't inspect your stools.

He said so many people struggle to reach happiness. Life is not a struggle. Life is not a battle. Life is fun and humorous. I have never laughed as much as with Zoran. He taught me a new angle on life.

We are star dust, reaching out to the universe. The 15th Symphony of Science video featuring Neil DeGrasse Tyson, Richard ...

Space Ride –Zoran

One night in Sedona I was with three of my friends. We were outside looking at the stars in lawn chairs. It was early July and was a nice evening.

The sky was clear. There were thousands of stars in the sky. We were looking at a strange phenomenon

taking place.

We would see these streaks of light going vertical in the sky. Imagine a huge flashlight sending a flash of light from left to right across the sky. It would come in one-minute intervals.

All of us were delighted with the show. We were making the same oohs and aahs when kids see fireworks.

During a lull, I notice three stars in the sky I never noticed before. These three stars formed a triangle in the sky.

It looked like a pyramid. All of a sudden I felt myself being sucked out of my body. It was like this huge vacuum sucking me out and my body.

There was this tunnel of light and I was traveling inside of this tunnel. We have all seen on Star Trek The Next Generation the sensation of warp speed. This was the same kind of sensation that I felt.

The next thing I knew I saw this huge Mother Ship. This ship was so large that there were Mountains, oceans, and earth-like plants inside of this ship.

I was greeted by a group of 12 beings. I recognized Zoran and Lord Michael. They took me on a tour of this ship.

The whole ship had a clear plastic-like substance which was the outer shell. Inside of this was the mountains. The main engine room was driven by energy itself.

They had the technology to convert energy itself to drive the whole ship. All electricity was generated by pure and perfect energy. There was no pollution whatsoever.

It's hard to put in words what I was going through and what I saw. It was so beautiful. These beings were so beautiful.

They were friendly and extremely intelligent. Their technology was light years ahead of ours. At one point I was placed at this beautiful table.

Zoran, Lord Michael, and the rest of the 12 beings placed their hands on my body and started to send me brilliant colors of light.

My whole body was enveloped in a rainbow of light. This light was pure consciousness. It was alive and extremely blissful. I felt all the stress taken out of my body. It was an incredible ceremony taking place. No words were spoken. 12 incredible beings were performing an ancient ceremony on me.

I felt they once again reminded me that we all come to the same source of life. There is a universal consortium of beings who are called the white brotherhood whose mission is to transform this universe into something far beyond what we can imagine.

There are millions of humans alive on this planet who are part of this consortium. Before we were born we all decided to come down and help this planet earth.

All the major religions know that something incredible is about to happen to this planet and the beings on this wonderful earth.

We are to usher in this era along with our friends. Our weapons are love. Love is the most powerful force in the universe. Our mission is to consciously change ourselves into being beings of love. Christ was a prime example of this.

We all have the same capacity. We just have to stop, look and listen to what going on. Here the most incredible event is taking place on this planet and we are asleep. We are too involved in little lives to stop for just one second and ask some basic questions.

Who am I.? What is the purpose of this life? Where is true happiness? I feel as a society we need to learn about tolerance, forgiveness, and being open-minded.

Each of us is so caught up in our mindset that we can't see that were is flowers on a beautiful garland called life. Isn't it so beautiful that we are so different yet all of us at the same time are so similar?

The breath of life is keeping us alive and we are unconscious of this fact. It's time to wake up and smell the roses. Each one of us is having the experience to remind us to wake up either conscious or subconscious. Even if you don't believe in any of this at all.

Imagine if this was all make-believe. There was a time when flying an airplane was make-believe. It is now a reality. There are millions of people on this planet whose prayers are to see peace on the planet.

In time this will have to happen. We just have to bring peace to ourselves. We have to know

who we are. We are beings of love.

We have simply forgotten who we are. It is now time as a whole that we wake up. It's kind of funny the whole world wants peace and happiness. Yet there is so much misery and poverty and greed.

The love we have inside is boundless and endless. It is worth more than all the riches in the whole universe. Without we are nothing. I know I had many incredible experiences in my life. Many people are envious of them. Yet without love, they mean nothing.

It's like a body without breath. No life whatsoever. Our main mission is to be so filled with love that whatever we touch turns to love. What would happen to this planet if every citizen on this planet were experiencing such love?

We would have no conflict, war, or poverty on this planet. We would truly help each other out. We would truly know that humans are incredible beings.

Well, I came back and my friend knew that something incredible had happened to me. I told them just a fraction of what happened to me. It was still so personal that I didn't want to blab out or be arrogant.

Years later I felt the time was right to put the experience in words. This incident showed me that my friend beyond the stars was always looking after me and this planet.

I knew my days as a young child looking up at the stars were based upon an unconscious yet conscious connection with my friends. We are never alone. We have friends who are looking after us. Most of the time we don't know it.

Infinite Ocean Of Blue Meanies

On Maharaj Ji's 14th birthday on December 10, 1972, a huge party was held in Prem Nagar ashram in India. For some reason, I came as the Blue Meanie. At the time I didn't

know why I choose that. I didn't like that character in the Yellow submarine at all.

Years later I had this dream was I was the Blue Meanie in this Yellow submarine. I felt this incredible energy of love filling me up. All of a sudden this Blue Meanie became 2,4,8,16,32,64,128,265,512,1024 and on to infinite .

This happened in less than a fraction of a second. My whole consciousness was in the infinite ocean of blue meanies. The whole sea loved itself.

Each blue meanie was separate yet tied together by the ocean of love. I felt a power more powerfully than a nuclear power plant surging through me.

This was the power of love flowing through me. I became the universe. Every part of creation was an aspect of this consciousness. I knew and experience everything on this planet and all other universes.

I was one. The effects of this dream lasted a long time. I felt so fortunate to be reminded of who we are. Life will teach us in such a beautiful manner.

Many experiences we don't seem to care about or know, will be used in the further for a greater purpose.

The image shows a YouTube video player interface. On the left is a video thumbnail for 'The Beatles Yellow Submarine' featuring the band members on a colorful, fantastical landscape. The video title is '10-The Beatles - Yellow Submarine (full album)' by 'Jonny Jack Playlists'. Below the title, two songs are listed: 'Yellow Submarine (Remastered 2009) • 2:40' and 'Only A Northern Song (Remastered 2009) • 3:25'. A 'VIEW FULL PLAYLIST' button is visible. The video progress bar shows the video is at 13 minutes and 13 seconds.

Sai Baba Dream

One day in Arizona I had this incredibly vivid dream. I dreamt that Sai Baba was sick. For those of you who don't know Sai Baba is a great Indian Saint.

He can manifest jewels from his hands. He has millions of followers in the world. Sai Baba was very sick in my dream. There were a lot of people around him in my dream.

He came up to me and said only you can heal me. As soon as he said that I felt tremendous energy flowing from within my being. I placed my hands towards him and started to send energy inside of his body. His whole body was shaking.

After a few moments, he was healed. The love that was flowing between us was incredible. I felt this incredible wave of love flowing into me.

My whole being was saturated with this experience. It was more than a dream. I really can't put the experience in words but it was incredible.

About three months earlier I took this incredible healing course. There the instructor told me that I would receive a great gift from Sai Baba.

Three months later this experience came to me. I have learned since then to have respect for all teachers. We can all learn from each other. I certainly don't have all the answers.

I don't know anyone who does. Each of us has something special to offer this world.

1 Split Second Got It Driving Car

One morning I was driving to work when I had this incredible flash that only lasted for a second. In this flash, I become one with the whole universe.

I was the sun, the stars, black holes galaxies. I knew everything. I was intelligent. Here I was driving down the highway in rush hour traffic when I had this experience.

The experience only lasted one second but it had such an impact. It was like lightning striking. My whole body and being were so charged. Each one of us can have such a realization.

It goes beyond time and space. I wondered what would happen if I could tap into this 24 hours a day. Makes you kind of wonder.

Kundalini Snake Experience

One early morning I was meditating using Mafu techniques. I felt such joy and happiness. All of a sudden I felt this incredible power. I saw this incredible cobra at my root chakra. This cobra was slowly rising up my spine.

The energy was incredible. It was so real. I became a little afraid due to the power and the cobra. I knew I would not be harmed at all. I controlled my fear and let the experience grow. The cobra went all the way to my third eye which is the pituitary gland. At each step of the way, I would have a different experience. I have always heard about the Kundalini experience but this was the first time I had the experience to see it.

The Vedas talk about this experience. The cobra was so real. It was like you had to face your greatest fears and then and only then could you be taken to a different level of consciousness.

Amazingly, this experience exists inside of our being, and yet it is dormant. We are so involved in this world that we are simply unaware of a greater reality.

I learned that the scriptures of the past were based upon practical experiences. We have simply convoluted the meaning of the experience and come up with a different meaning altogether.

Naval Special Warfare -Meeting Alien

I was working for the Navy as a computer programmer. One day I got off work and was walking downstairs from the main building I was working in.

All of a sudden this alien is behind me. He looks like a combination of a human and a reptilian. I had a little fear but I knew I would be all right. As soon as I reached the bottom of the stairs I saw the guard look right at me. I was thinking do you see what I see?

The alien was right at my side. I couldn't believe the guard didn't see him. I laughed to myself and walked out of the building. The alien continued to walk by my side until I got to my car.

I entered my car and the alien sat in the passenger seat. He drove with me about 10 miles.

To this day I wished I said something to him. I was still a little afraid not because he was an alien but because this incident caught me totally by surprise.

I remember looking at this alien in my car and I could see him smiling inside. He was friendly and at the same time full of wisdom. I knew I would be ok but at the same time, it was an Erie feeling that I saw an alien face to face.

It's strange in our society the vast majority of people know some beings exist from other planets or worlds and our government tries to suppress and downplay any activities about UFOs and aliens.

Some people might say it was a hallucination or a vision. I don't drink, take any drugs including medical drugs, get plenty of sleep, etc. This encounter was as real as any physical encounter with any human being I have faced. The only difference was this was an Alien.

For myself, I knew I had a wonderful encounter with an Alien from a different home than earth. The next time I think I will carry on a conversation and learn more about him.

A few months later I was with Zoran who claims to have a huge mother ship within our galaxy. He was taking my family for a walk in the Laguna Mountains outside of San Diego.

I had no idea where we going. I had a picnic lunch with me. We probably walked for about an hour. All of a sudden Zoran stopped and with a smile, he said: "Do you see anything different about this place."

I looked around and at first glance, I thought about what you are talking about. All I see is just a forest. Then I started to see what was around me. All around us were a huge circle.

Inside of this circle the leaves, grass, and trees were burnt. I have heard stories about how when a UFO lands the surrounding area is burnt. I knew this wasn't

man-made or made by nature. It was obvious some craft had landed. It was kind of strange that Zoran took us on this walk and we just happen to end up here.

Be Like A Child (Innocent And Open)

I will always remember the birth of my two daughters Chanda and Aleia. My daughter Chanda was born in March 1980. She was born in Miami.

My wife at the time had a hard labor. I believe it was over 48 hours. Both of us wanted to try a home birth. We found the

two best midwives in the area.

Anyway, to make a long story short Chanda finally came out. I remembered placing her in a warm tub of water and this incredible smile came over her face.

It was filled with so much innocence and openness. She was filled with love. It is amazing all of us start this way and yet over the years, we start to lose it.

My next daughter was born in a hospital. We were planning to have a home birth. During actual labor, while we were at home the midwives knew she was having heavy contractions yet Barbara was experiencing no pain.

She got completely into the joy of having a child. Unfortunately, her pelvic area was too small so we ended up at the hospital. She had a C-section.

The moment Aleia came out both of us were in joy. I spent the next two days holding Aleia as she had to be in an incubator for a short time. Barbara was recovering from the C-section.

All human beings have that childlike state inside of them. We have simply forgotten the beauty and the aliveness of that state.

Children have an easy time letting go. If there are mad one moment the next moment they are happy.

We hold our grudges for a lifetime or we go to war. A child ultimately believes in cooperation.

A child experiences the love of being alive. It is inquisitive. It gets delighted seeing something new.

Have you ever seen the joy on a child's face when it takes its first step? A whole new world is about to open up. We need to take those steps

like a child in our life. We have miracles happening right before our lives and yet we don't see them. Our children are the future.

Crosby, Stills, Nash & Young - Teach Your Children

Tom Page

From the 1970 album "Déjà Vu" Great Pedal Steel Guitar by Jerry Garcia. #CrosbyStillsNash.

2:55

It's something wonderful raising a family. I experience completeness inside of my being. We are so lucky that we can create an atmosphere of love in our home.

I think I prefer a family life to being single. I times I think a single person can do anything he/she wants. It can travel and of course, it can spend money the way it wants.

But family life is a unit. The family can laugh and play together. Family life makes me feel complete. It makes me feel whole. A part of me needs that kind of life. When my daughter Aleia was born we decided that my wife would take off work for five years. We felt it was

important to our daughter that we raised our child. We could guide her in the way we felt was right.

Financially we struggled but it was well worth it. It's a wonderful experience with the love of a family. Love is the power that heals. With Barbara, I am healing myself from my past relationships.

Both of us feel complete. We know that we are to be together. It is wonderful to experience completeness in one's life. Being single a human has a hard time developing a long and meaningful relationship with someone.

With marriage, we go through the ups and downs and it builds character and love for one another.

One thing I see is that no institutions teach about marriage. We go through our lives we fall in love and we get married.

No one teaches that there is a lot more that comes with it. No wonder so much divorce is going on in this world. At times people think marriage is a failed institution or it's outdated.

But with the right person and with the right values there isn't anything like it. Have you ever walked into a home and just melted with the harmony and the peace surrounding the place?

This is a place of nurturing. Then you can walk to another home and you just want to walk right out. The husband is yelling at the wife.

The kids are totally upset. We are in charge of our atmosphere. It is our duty to our children to provide a home of security and love. A home should be nourishing. We can all provide that. We just have to change our priorities. I have met single mothers who have provided that atmosphere in their homes. It is their priority.

They didn't have much money but they had a heart. They created an atmosphere of love in their homes.

Our children are the future. Let's provide them with the care that we would like to have.

Back To The 90s - 90s Greatest Hits Album - 90s Music Hits - Best Songs Of best hits 90s Back To The 90s - 90s Greatest Hits ...

During the nineties, our family moved to Maui. I got a job working for the Haleakalā Observatory. Boeing was the subcontractor.

The air force operates the Maui Space Surveillance Complex. The air force was tracking space debris and satellites. One of my first

projects was a dome automation system.

Imagine at midnight we would have a dome operator which would have a switch to move the dome clockwise or counterclockwise. During the winter it would get extremely cold.

The operator would be wearing a snowsuit. At times during an important pass, they would doze off and fall asleep. I was instructed to automate this process.

My friend Paul was charged with the overall hardware design and I was assigned to the software side. The program was written in C++ which I was not familiar with.

Anyway, we had a short timeline to pull this off. Paul and his crew installed bar code readers around the dome. We had an IBM Pizza box that we used.

The basic formula was we had to take the AZ, POL, and Dec positions and calculate where the dome should move to.

At times we had to force the dome to go super-fast and when we got to our destination we had to slow down and they stop. We had to make fine adjustments along the way.

When we first tested out this system we would hear a hum when we were stationary. We quickly fixed this.

The system was installed on time. The system was so successful that we had another dome that was requested to have the same software and hardware installed.

Here's a photo of my surfing buddy and co-worker at the Observatory Bob Brem. He has a mentor for robotics at Baldwin High School.

Programming mentor Bob Brem poses with Baldwin Robotics students and their robot during last year's FIRST Hawaii Regional Competition in Honolulu.

I remember one day I went up to the Observatory and they were looking at a tape from the past evening. The last evening a UFO was spotted on Maui. It was reported on the evening news. Several of the people who investigate this kind of phenomenon had no clue

what the object was. They said nobody on earth makes anything like this.

I had a couple of close surfing friends who worked there. We worked 4 ten hours a day. This included drive time. The ride up the mountain was incredible.

As you drive up you can see both sides of the island. Rainbows would appear and disappear. We would drive in vans and take turns driving.

One of my bosses was a surfer so on good days we would go surfing and then drive up the mountain. Because it was an observatory no light was allowed.

Imagine coming home and seeing thousands of stars. We would listen to Hawaiian music.

My favorite singer was Israel Kamakawiwo'ole. I saw him in concert twice and listened to him on the radio. He played the ukulele and had this voice from heaven.

His medley of somewhere over the rainbow/what a wonderful world is famous worldwide. It took time to get to know the Hawaiians. As I spent time with them they would open up and become my friend.

Many of them seemed to not care about you but in time they open up their hearts to you. I loved the Hawaiian spirit. They are a culture of family and friends.

Surfing was a way of life for them. The ocean was in their blood. Whether people believe it or not they descended from the Lemuria which was the first ancient race.

Many of the Adam and Eve concepts come from this ancient culture. To this day the magic and mana continue. Many of the kahuna to this day believe in Lemuria and its ancient culture.

One of my favorite surf spots was Paukukalo near Wailuku. It is a river mouth reef break. One day I surfed it in the morning and it was 4-6 Hawaiian.

The Hawaiians measure the wave by the back. So a 4-foot wave to them is two feet. Anyway, the swell then went to 6-8 feet and then 10-12 feet.

The waves were so large that when they broke the ground would shake 25 feet below. I remember that one huge set came in and I was in the right place at the right time.

I paddled hard and I dropped in easily. I did a bottom turn and this huge wave tunneled over me. I was riding with pure delight. My friends were in the channel

paddling and they were screaming with joy at what they were seeing. It was probably the best wave of my life. It took a long time to make it to shore. When I did many of the surfers wanted to kiss the ground because of how large it got in such a short period.

My family loved Maui. We lived in upcountry Makawao. You didn't need air conditioning or a heater. Where we live we had a huge avocado tree, bananas, oranges, and passion fruit.

We lived in Maui for 6 magical years.

On Maui

My dear friend John Slowsky, Matt Rauch and I developed OnMaui.com in 1996. It was quite revolutionary for its time. John did all the graphics for the site.

Since then John has been at the forefront of graphic design. Check out <http://slowsky.com/>.

We developed 3 virtual towns in Maui. Makawao, Paia, and Lahaina. Imagine back then we didn't have Google walkthrough of towns. John and I developed something similar to what we have today.

For example, I took photos of the towns in Maui. John then stitched together the photos. Back then VRML(virtual reality markup language) was just taking off.

By the way, it didn't make it. We created virtual walkthroughs of these towns. You could stroll down the street and go into surfboard shops and art galleries.

You could even buy things. Years later we have google maps where instead of a person walking down the street they have this car with a built-in camera. They could capture images of our towns in minutes.

During this period, my family and I moved to Ashland Oregon. I was working for Charles Schwab and could live anywhere in the states.'

My daughter went to high school and university in Ashland. Ashland is known for its diversity. As a college town, it is quite open.

There are many different spiritual expressions around. We have three different kinds of Buddhist sects in town.

There is a beautiful Buddhist temple in the Colestin Valley. It is located about half an hour from Ashland.

The Foundation for Meditative Studies exists in a beautiful mountain setting. My wife and I would attend many events which took place up in the mountain.

At times it would be snowing outside and we would all be inside meditating for the planet. It was like a scene from Tibet. Words truly can't describe the experience.

Mafu's message was to be in compassion and live in compassion. Nobody needs to be converted. Everyone has that spark inside of them.

Charles Schwab

Senior Staff Web Developer, 1999 to 2009

Charles Schwab, San Francisco, California

Developed, maintained, and upgraded cutting-edge financial industry software. Created .net web-based software for operations and brokers.

Charged with all phases of development including database design, stored procedures, and jobs.

PAT

Lead Developer

Built program called PAT which tracks all Transfer of Authorization (TOA's) going out for a Broker when they leave the company.

Each broker signs an agreement saying they won't take any clients with them when they leave the company. This program tracks all ex-employees for a certain period depending on their warning level. It will send out an email when the threshold is met.

The legal department has used this tool for bringing lawsuits against ex-employees who have violated their contract.

Built a series of reports using MS Reporting Services that they use daily. C#, .net 3.5, Team Foundation Server, JavaScript, AJAX, MS SQL, Teradata, Sharepoint, Visual Studio

This software project has resulted in Schwab not having to go to court to protect its clients.

PAR Letters

Lead Developer

Generated custom letters to be sent out for various rate changes. Built first a custom tool where the broker had to custom build the letters. The second phase automatically creates the letters from a database job.

This system saves Schwab 40 hours a week in input alone in the San Francisco office. No longer does a rep need to input the letters. C#, MS SQL, Sharepoint, Wiki, .Net 2.0, Team Foundation Server, Visual Studio 2005.

Pricing Desk

Lead Developer

This program tracks in a queue all pricing changes requested for a client and is part of a web-based software tool on each broker's desktop. Each request is reviewed by the Pricing and Analyst team for approval. C#, MS SQL, Java Script, Web Services, Sharepoint, Wiki, .Net 2.0, Visual Source Safe, Visual Studio 2005.

Business Calculator

Lead Developer

This is a tool utilized by the Brokers to calculate naked, spreads, and straddle and is a part of each broker's desktop tools. It was developed in JSP, Java, Java Script, and Web logic server. Converted Calculator to c#, Java Script, Sharepoint, Visual Studio 2005, .Net 2.0.

RPM program

This program calculates how much Schwab makes for each account. If a client calls for a discount this tool displays around 30 key areas displaying how much profitability is made on the account.

As the Co-developer of this program won a prestigious award presented by Charles Schwab himself. C#, JavaScript, AJAX, MS SQL, Oracle, Teradata, Sharepoint, .Net 2.0, Visual Source Safe, Visual Studio 2005.

[Stock Market Game](#)

Developed a stock market game using Java and web logic. The game was used to determine a person's portfolio in real-time. This game was used to see who the top teams in Schwab were and the top Brokers.

Each player was given \$100,000 of play money and over three months Schwab could see who was the winner and all strategies used Java, web Logic, JSP, and JavaScript.

[Dan Villarreal, CSM, PMP](#)

Sr. Program Manager, Vice President at Bank of the West

I worked with Richard on several critical efforts at Charles Schwab. Richard was the primary developer and contact representing his technology group on the projects I managed.

He was adept at interpreting the business requirements, which were often in flux. Richard could be relied upon to foresee the potential risks and helped us to mitigate them before they became an issue.

Most impressive about Richard was his ability to work independently relying on his research to find the right sources of data in a highly complex organization.

The result was that Richard developed a brilliant tool that allows Schwab to stem a historical asset attrition issue that was costing the firm tens of millions of dollars.

March 5, 2009, Dan worked with Richard at Charles Schwab

[Maurice Wright](#)

Creator of Things at MWright - portfolio.mwright.com

Humility and intelligence are the first two words that come to mind when I think of Richard Fletcher.

We worked together on the same development team for several years. In addition to his affable nature, what sets Richard apart from other developers is his discipline in coding.

Whether it's documentation, technical project management, or coding itself, Richard is better than anyone when it comes to identifying and implementing the shortest, most efficient path from point A to point B.

February 20, 2009, Maurice worked directly with Richard at Charles Schwab

[Wynne Shaw](#)

Council Member - Lone Tree City Council District 1

Working with Richard and his web development team was a breath of fresh air.

Richard worked with me on several web development projects over 5 years. He asked the right questions, was able to converse in easily understood terms with me (saving more technical developer language for his team), and always found ways to find a creative solution to address our needs.

The results Richard and his team delivered allowed for significant productivity gains across multiple business units.

February 15, 2009, Wynne worked with Richard at Charles Schwab

[Paul Bishop](#)

Senior Software Application Engineer

I have had the pleasure of working with Richard for 8 plus years, and can't say enough about his contributions to the success of our team.

Richard has a tremendous work ethic and produces quality solutions that usually exceed the expectations of the business partner.

Richard has been a consummate team player and is very quick to offer his help and extensive programming knowledge to others in any capacity.

Additionally, he can easily grasp the needs of the end users and quickly deliver top-quality, high-impact applications utilizing the most current technologies.

I would recommend Richard to anyone looking for a proven top-level performer.

February 12, 2009, Paul worked directly with Richard at Charles Schwab

Eric Wood

Software Application Engineer at Charles Schwab

I have worked with Richard closely on the same team throughout the last nine years or so.

His extensive experience coding and his ability to understand the business make for an excellent combination.

In addition, during my time working with him, I have known him to be a person of integrity and intelligence, as well as someone who brings a positive attitude in his daily efforts!

Richard has made a strong contribution to our programming team and I recommend his work in this capacity

February 9, 2009, Eric worked directly with Richard at Charles Schwab

I worked for Charles Schwab for almost 10 years. They laid off around 12,000 in 10 years. I love my job. It was extremely creative.

I won various awards and even was presented one by Charles Schwab himself. There was a great team that I worked in. Unfortunately, I survived 10 out of 11 layoffs.

My last project saved the company millions of dollars everyone who worked on that project got laid off. I was given a very generous severance package on the condition I wouldn't sue over age discrimination.

I spent a few weeks looking for a job find this job below. I worked on this project for around 6 months. This software was written for the salesman at Panasonic.

Imagine the salesman going to Walmart and they would have a software program where they would have sales projections for the various items Panasonic would sell.

There were many different factors involved. I created a temporary data storage where when the salesperson went to a Starbucks they could upload their business to the online server.

Unfortunately, this was during the recession. Panasonic lost over a billion dollars in a quarter and the project never got released. I was laid off <grin>.

Plexis and Stillhead

Senior Staff Web Developer, 04/2009 to 11/2009

Steelhead Advertising, Ashland, OR

Lead Developer

Created a forecasting desktop application for Panasonic. Using Flex, MS SQL, SQLite, Web services, and PHP.

I loved working with Plexis. My salary went down by half of what I was making with Charles Schwab. I worked with Chris Facey who was from Canada. He was a bright young guy and a pleasure to work with. Every day we would take walks around town.

Software Engineer, 11/2009 to 03/2011

Plexis Software, Ashland, OR

Building next-generation medical insurance prototype software using Adobe Flex, Pure MVC, MS SQL, Web Orb, and web services. Developing common-based code for desktop and web applications.

Developing and maintaining 800 thousand to 1 million dollars medical insurance software program. Working in c# and Visual Basic.

Built a claims web portal in Microsoft MVC. Using Microsoft Entity Model and LINQ to SQL. Built WCF services.

Convert Quantum Choice application to be 508 compliant.

Kansas

USDA RMA

During my time at Plexis, we sold our house. We made a decent profit. About 5 years before our house jumped from 340,000 to 600,000 in two years. Crazy.

The Ashland market was dictated by the Northern California market.

Wild mood swings which unfortunately exist today. In Ashland, 3 percent of the market is not rented out. Rents have skyrocketed.

One day I get a phone call and I was asked "Do you want to do a phone interview". I said sure why not.

Anyway, I did this interview and about 30 minutes later my wife said you got the job and I said what job? This is how we ended up in Overland Park Kansas.

I'm not sure how stable it is being a government contractor for the government.

If you are a government employee your job is secure. If you are a contractor well here's my story.

I was in charge of maintaining a program where once a week various livestock insurance was being sold.

For example at 10:00 Central on a Tuesday the doors would be open to accepting live orders. We should have around 3 million dollars of insurance before the money would run out.

My job was to make sure the doors were open exactly on time and not a minute before. It was exciting to watch. It was like a mini stock market.

Anyway, in March 2013 the government was having financial problems and I got laid off.

[Mike Reed](#)

Lead Engineer Software at the Sunflower Group

Richard is highly experienced and dedicated to working with the latest technologies to maintain his edge. He has a strong ability to translate business requirements into practical solutions. While Richard and I were never working on the same team, our team needs to cross several times, and I could trust that when Richard was involved the job would get done and it would get done right. Richard is also a good soul. The type of teammate you value both personally and professionally.

March 29, 2013, Mike worked with Richard at Kforce

[Software Engineer, 04/2011 to 04/2013](#)

Kforce

Contractor for SAIC. Working in C#, reporting services, and MS SQL 2008.

Worked on buying insurance policies for the USDA. Also worked on a program to track delinquent buyers of crop insurance.

Presently working on eDAS an online program for buying livestock insurance from the USDA.

Built a file watcher program that monitors files coming in to denote starting times for AIPs buying livestock insurance for farmers.

Automated a manual authorization process that allows AIP agents to modify key data with a special key. This was a time-consuming process that involved different groups inside the IT departments.

Received security clearance.

I worked with 3 other individuals with Booz Allen. They were a delight to work with. We maintained a GIS mapping system for all the farms in America.

We worked on enhancements and fixing bugs. Our team always looked at the future. Microsoft in a few years was not going to support the browser the USDA was using.

The ESRI GIS was not going to support Silverlight in a few years. We built two proof of concept. One used the .Net technology and the other one was a JavaScript version.

We would have easily finished two years ago. Unfortunately, things don't always work out. The project was stopped and started around 6 times.

Our team went from 4 to around 20. Millions of dollars were wasted. This past year our four-man team didn't have any work to do and we all got laid off.

Now in the ESRI GIS world, there is a steep learning curve. Our team worked incredibly together. If and when this team has to

Roads and Rails dataset layer place on top of NAIP 2006 imagery dataset located in Salt Lake County, UT

develop a new system all of the brainpower is gone. There is no one to support the system.

Software Engineer, 12/2013 to Present

Built a prototype of the new USDA Farm GIS system. Built system based upon HTML 5, Angular, bootstrap, and MVC 5.

C#, MVC 5, RESTFUL web services, ESRI, NAPI Imagery, SVN, Visual Studio 2013, MS SQL, HTML 5, JQuery, Bootstrap, Angular

Maintains and adds new features to the USDA Farm GIS system. This software has GIS maps for farms all across America including Alaska and Hawaii. My job has been to make the software run faster and more efficiently. I also have added more features that the business needed.

C#, Silverlight, RESTFUL web services, ESRI, NAPI Imagery, SVN, Visual Studio, MS SQL

Craig Belser

Contract Applications Developer/Architect

I had the pleasure of working with Richard for two years at the USDA, where he was a core developer on our GIS team. He has excellent talents across multiple technology platforms that make him a well-rounded developer with both breadth and depth.

His ability to offer multiple solutions to every obstacle makes a dramatic difference in the productivity level of our team.

His optimism and determination lead the entire team with a can-do attitude.

Richard would be an asset to any team.

November 8, 2016, Craig worked directly with Richard at Booz Allen Hamilton

G. Todd Comer, ICP, GISP

Explorer

Working closely with Richard during the past few years, he is always eager, and dedicated to any task; indeed, his light-heartedness and eternal optimism ensure a positive work environment and promote cohesiveness within the team. He consistently delivers complete and competent code on time, seeking out peer review to ensure the same, and always accepting and open to suggested changes, even if it means throwing everything out and starting over.

November 2, 2016, G. Todd worked directly with Richard at Booz Allen Hamilton

Ross Short

Associate at Booz Allen Hamilton

Richard is a highly skilled developer with 20+ years of experience. I have been his Team Lead for 3 years. Richard's knowledge of .NET and expertise in development was a huge advantage to our entire team. He put this skill set to work to remediate code defects.

Along with his undeniable talent, Richard has always been an absolute joy to work with. He is a true team player and always manages to foster positive discussions and bring the best out of other employees.
November 1, 2016, Ross managed Richard at Booz Allen Hamilton

Trebonis

Owner 12/2011 to present whatscookingtreasures.com

Built whatscookingtreasures.com. A worldwide ethnic recipe website that allows the user to use the smartphone as a device for grocery lists and planning meals for the day, week, or month.

Each recipe calculates nutritional information from the USDA database. Capability to search for recipes by nutritional content, author, and many other unique criteria.

One of the only sites on the Internet that will allow the user to search by nutritional content. Added around 100 new ethnic ingredients to the USDA database.

Built site and added over 700 recipes from my worldwide collection of recipes. Built site to accommodate smartphones and standard web applications.

C#, MVC 4, RESTFUL Web services, MS SQL 2012, Java script, AJAX, SOA architecture, LINQ, Visual studio 2012,.NET 3.5

The Byrds - Turn! Turn! Turn!

19M views • 14 years ago

embryonicsoul

The classic song from the 60s band "The Byrds"

See the Latest recipes

How would you like to make homemade cheese with two ingredients?

Recipe of the week

A good cook is like a sorceress who dispenses happiness. — Elsa Schiaparelli

Ethnic Cuisine

This is my pride and joy <http://whatscookingtreasures.com/>. I have collected recipes from my travels from all around the world. During the eighties and nineties, I built a really simple database to hold my recipes.

Years later I worked as a contractor for the USDA. They had a nutritional database that contained all the nutritional information for thousands of food. This database was free to the public. I incorporated this database into my system.

I always learn through the building software. None of my past employers were using MVC a new framework for the .Net platform. So I learned it and used the latest technologies in my product.

Here's some info directly on my site why to register.

Here are some of the benefits. It's free. Our goal is to provide you with quick and easy tools to assist you in all

areas of cooking. Each recipe has a nutritional label that you can use for a healthy and tasty recipe. Using your smartphone you can have a shopping list for each recipe on hand while shopping at the store. While you are making the recipe your smartphone will help you prepare your meal by easy-to-use directions. Most of the recipes take less than 30 minutes. It's a great and easy way to share and discover new recipes.

Getting Laid Off

Since 2009 I have been laid off 5 times. Before that, I never got laid off. The first time with Charles Schwab was quite a shock. I felt it. I thought I survived getting laid off.

A good friend of mine got laid off early in the morning and it was after lunch I got the phone call. It is ever so common nowadays that companies lay people off.

What is happening in America? Millions of people are getting laid off and their families and lives are dramatically changed. There is no loyalty involved.

My boss who laid me off got laid off when he was a certain age. Probably the person who laid him off will get laid off. Human beings are not some objects who you can hire and fire.

Each human being is precious. Why doesn't America have employees on the board of directors? Why is the entire company directed towards making profits for the shareholders?

Have we lost our sense of morality and ethics in our corporate culture? I can see each time I got laid off it was easier to recover. Been there done that.

Yet do we need to go through this? When I got laid off from Schwab they made a tremendous profit. Is the company more interested in profits than the welfare of its employees?

There must be a balance. Employees are spending more time at work than their families and yet the company still will lay them off. In all the layoffs I have seen I didn't see a real reason to lay people off.

The company could have taken a financial hit without laying people off. I have yet to see my salary equal to what my salary was 8 years ago. So many Americans are going backward in salary while the one-percenters are having huge increases in wealth.

Nelson Art Museum

Barbara and I love the Nelson Art Museum in Kansas City. They have this amazing Quan Yin temple. There is a beautiful statue of Quan Yin there. Quan Yin is the embodiment of Compassion. She is known as the Bodhisattva of Compassion.

This is a quote from the Nelson Art Gallery. A jewel of the museum is the Chinese Temple Gallery (Gallery 230), which displays a 12th-century polychrome

wooden figure of Guanyin of the Southern Sea, heralded as the finest sculpture of its kind outside China.

According to the tour guides, this statue was found in China around the early 1930s. It was found in the snow and was about to be used as firewood. China at the time was having such difficulties. During this time the Nelson-Atkins Museum bought a huge investment of Chinese art worth Millions today.

The atmosphere in the temple is out of this world. You walk in and the room is flooded with Love and Compassion. Yet for many people, it's like the scene from Chevy Chase in National Lampoon

Vacation where Clark Griswold sees the Grand Canyon for the first time. He simply nods his head and goes on his way.

What makes us miss this experience? It's like a dog whistle. Only a dog can hear it. The whistle is blown but we can't hear it. Kansa City is the heartland of America. Here we have this incredible temple. Imagine universal compassion that is manifested in the temple room.

Quan Yin 1

Overland Park Arboretum

This is one of my wife's and I favorite places to visit in the Kansas City area. My wife and I love nature. Many of the city folks quite frankly think that nature gets in the way of things.

We love in winter to watch the thousands of geese in the skies. We love the formations and honking sounds.

It's like a huge parade in the sky. Many of my work friends think it is a

nuisance.

The Arboretum is our sanctuary. We try to go at least a few days a week. We only live about 10 minutes away. We love all four seasons. I have lived in Kansas now for 6 years so we have witnessed the beautiful changes that nature goes through.

The earth (GAIA) is alive and speaks to you. The older I get I'm getting more in touch with the beauty of nature. The earth is a part of us. We

are interconnected. We live this life and have forgotten our precious connection.

Shay

I wrote this poem on 3-27-2017 for my friend Shay who passed away two years ago. Donn Rochlin did the music. Donn and Shay were tennis partners in Sedona.

Shay and his Mom 1

Pleasant Surprise

My dear friend Shay passed away two years ago.

We were friends for around 28 years.

We considered each other as spiritual brothers.

We were on the same path in life.

He died without me have the opportunity to say goodbye.

Recently I discovered some tapes that were recorded many moons ago.

I was having a reading and Shay was in the house.

Shay said that he thought there were many people in the room because of such laughter he never heard before.

When the channel was over only three people walked out of the room.

As I listened to the tape Zoran who was being channeled told me that I spent time on a planet called nucleus.

Nucleus was a university where people studied God directly.

Imagine being able to be the whole universe and be aware of it.

This was the nature of the studies at nucleus.

Anyway, during my early morning meditation, I decided to go to nucleus.

I closed my eyes and went into deep meditation.

After several moments the next thing I knew I was in a cosmic soup of light, love, and sound.

To my amassment, Shay appeared in the light.

You could say he was the light.

He had a simple message to deliver.

I'm more than ok.

Please send my love to all my family and friends.

It was so great to hear from my dear old friend.

Shay was saying something dear to my heart.

You are the universe and just don't know it.

Shay was in that state of oneness.

He was one with his creator.

He was home.

David The Dragon

I just got up. It's 4:04: in the morning. I'm writing early because throughout the night my mind was going over what to say about David Schweizer.

We have been friends for over 40 years. Well, I log in to my computer and there is a message from David. What a synchronicity!

I've known David since I lived in New York City. He lived in Hartford Connecticut. During the eighties, we both moved to South Miami.

At some point, he starts making pyramid kits. Around the same time, my wife starts building pyramid kits. They didn't know each other.

Both of them at the time were studying with Ramtha. They were the only two individuals building these kits.

Now David and my wife Barbara had a mutual friend in Castle Rock Arizona. Barbara went to visit Jim about 3 times. Each time Jim Maheu would say you just missed David and David Husson (another friend of mine).

Now David Schweizer, John Baier, and Harry Bartz introduced me to Mafu's tapes. My dear friend Catherine who I met at the Monroe Institute got a job working for Shirley MacLaine.

Shirley was going on a nationwide tour and giving seminars. Well, they needed a computer programmer and I get the job.

I take a plane from Miami to Los Angeles. Then I got a ride to the office. I spent the day working and after work, they said we are going to a Mafu event.

Do you want to come? The rest is history. Isn't it amazing that in my channeling readings I was told that I would meet Mafu before Manu was on the scene?

Now David was visiting California for some time. He went to several events. I moved to the Pacific Palisades and we would take walks in the hills.

Now there was a pyramid project that David Schweizer was going to work on. Mafu called David "Hermes". Hermes was the main Architect in Egypt for building the Pyramids.

Now I'm not saying David was Hermes. Yet why did David start building pyramid kits? Does our DNA contain blueprints of who we were in the past?

We are all stardust. We are the universe. We just think we are these funky human beings.

Well, David invites me to join this project. The project is located in Sedona Arizona. Wow, what an incredible place. I take a plane from LAX to Phoenix. David and David are there.

They said we are going to see Zoran tonight and would you like to come. So now David has introduced me to both Mafu and Zoran. Is there synchronicity going on? Anyway, I move to Sedona

and we all share a house. Eventually, I move to this incredible trailer where my backyard is the creek. I have more details in this book but I met my future wife. She is going to rent my trailer for a while.

Both David and David met Barbara for the first time. There finally could put the pieces of the puzzle together. Who is this David? Who is the Barbara?

Personally, David has a heart of gold. I think his IQ is off the chart. He is one of those who can do anything. There are several jobs he has worked on where you needed the training. Yet without the training, David comes in and performs.

David has had an active acupuncture practice in Miami for many years. He has been using lasers quite successfully in his practice. David studied for a while Zen Buddhism.

I think meditation helps in our daily life. Both my wife and I see David as a great example who brings heaven to earth. Frankly, I think that is the goal in life. If we all did that there would be heaven on earth. Meditation is not hocus pocus.

Harry Bartz

It's 2:13 in the morning. I've been sleeping and meditating for an hour. I was thinking and contemplating the web of life with Harry Bartz.

I first met Harry in LA in 1976 over 40 years ago. It wasn't until the late seventies did we come in contact with each other again.

We both moved to South Florida in the late seventies. We were both involved with the same teacher.

At that time Harry was running a tree cutting business. It was a great business. There was always plenty of work. Harry hired me and we became good friends.

At that time windsurfing took off in America. Harry took up windsurfing.

He invited me to his house and in his backyard, I learned how to windsurf. I bought a board and it was love at first sight. John Baier and I were windsurfing buddies.

During certain seasons the wind would howl and you would have the time of your life.

I didn't see Harry for a while. One day I bumped into him and he told me he finished a year's course at the Computer Science Institute. He took Basic, FORTRAN, and COBOL. I always knew I was going to be involved with Computers. Even at a young age, I

```

381 //force the constraints to be stored (sequentially)
382 //force an initial, the order of the variables below
383 //is significant to avoid the unaligned float warning!
384 sequence
385 //The list linked list:
386 type(json_value, jsonizer) :: previous -> null()
387 type(json_value, jsonizer) :: next -> null()
388 type(json_value, jsonizer) :: parent -> null()
389 type(json_value, jsonizer) :: children -> null()
390 type(json_value, jsonizer) :: tail -> null()
391
392 variable name
393 characterkind-OK, len-1, allocatable :: name
394
395 //The data for this variable:
396 real(NK), allocatable :: dbl_value
397 logical(LK), allocatable :: log_value
398 characterkind-OK, len-1, allocatable :: str_value
399 integer(IK), allocatable :: int_value
400
401 integer(IK) :: var_type -> json_unknown //variable type
402
403 integer(IK), private :: n_children -> 0 //number of children
```

knew that. To make a long story short I'm still involved 35 years later.

So Harry was a catalyst. Here's the definition.

In chemistry, a substance that causes a chemical reaction to occur but is not itself involved in the reaction. Note: The term **catalyst** is often used to

refer to the prime agent of any change: "She was the **catalyst** for the reorganization."

I find it fascinating that life's events help you to be at the right place and right time. Synchronicity was there. Harry gave me the impulse to enroll and start an incredible career.

Yet it doesn't stop there. Harry was one of the ones who told me about Mafu.

Fast forward a few years. Barbara and I moved into a house with Linda Graham. Linda's ex-boyfriend was Donn Rochlin who in the future (25

years later) provided the music for my first poetry/music CD. It's featured on this site.

Yet guess who is living next door. Harry Bartz. Harry made a ton of money selling computers and moved to Sedona.

This was in 1987. In 1991 my family and I moved to Hawaii for 6 glorious years.

I got a software engineering job at the Maui Space Surveillance Site. My wife and daughter went to Maui and I went to Portland Oregon for a few weeks. I had a contracting job I was going to work on.

In Portland, I get a call from Harry and he tells me that Mafu was going to give a 3-day retreat in Ashland Oregon. He was teaching about ancient Vedic meditation techniques. Now that's a subject I love and dear to my heart. So I went.

In 1999 I started working with Charles Schwab as a senior software engineer.

At that time our family was living in Penn Valley California. I was a telecommuter. Now Penn Valley's internet connection wasn't very good. It was horrible. You had to use a modem. So I started to look for a community that had a great internet connection and a great high school for my daughter.

Well, Ashland Oregon just recently installed the whole town with fiber optics. Ashland High was an incredible school for my daughter. Guess what Harry was still living there.

From 2000 to 2008 we spent a lot of time seeing Mafu. He liked me. When we first moved there one day he got off the stage and came up to me and gave me his initiation jacket.

This jacket he has worn for many of his imitations. I was honored. At that time I also was involved in a Mystery school and used that jacket for the initiations.

Many people think that channeling was fake. Well, I met and talked to Mafu many times.

We had a deep relationship. Like any relationship, you knew one another. Yet there were numerous times I saw Penny (who channels Mafu) and said Hello. She had no idea who I was. I think

I spoke to her once when she was reading off the list of attendants for a seminar and said hi to each one.

One time I saw her and

Rob Spinnler was with her. I said 'hi' and as I was walking away she whispered to Rob who that's.

Rob said that's Richard Fletcher. That gave me a sign that I had a relationship with Mafu. How can you have a relationship with someone when you never interacted with them?

So it makes perfect sense for Penny to say who's that? We have never interacted before.

What I liked about his group was that Mafu taught about kindness. He taught about compassion. He taught about meditating for the whole planet.

He taught universal truths. The universe is kind. That is its nature. Mafu is kind. That is his nature. As humans our true nature is kindness. It is just covered up.

So here was a group practicing universal truths of love and compassion. It wasn't just words

Mafu was an incredible drummer. Imagine during the winter. It's snowing and you're on top of a mountain inside of an ashram. It's nighttime and the wind is howling. Mafu is on stage beating these huge Japanese Taiko drums. It's a site to see. At that time and place, you

could be in some remote monastery on top of a mountain in the Himalayas at night.

Now back to Harry. As you can see Harry has had a tremendous impact on my life. Harry is very kind. In Sedona, I had little to my name and Harry would treat me to lunch.

Harry doesn't say much, like me at times. He doesn't preach. He just smiles. He has nothing to prove. He loves to meditate.

I know he is having a great experience but he doesn't talk about it. Yet you can see it from his eyes. He is humble like that. He has served the Foundation for Meditative studies for over 25+ years.

I call him a few times each year. It is good to connect with a dear friend. Friendships are God's way to connect with him.

Imagine we are the universe yet we have forgotten that fact. Friendship is God's way of saying 'I love you'. Treasure your friends. We all have an aching soul that's trying to find its way home. Friendship help soothes the soul.

"Chakric Consciousness is Sound and it is Light. Light and Sound Synthesize in this Dimension as Color" Sri Gurudev Isa Mafu ...

Paul McClain

In the fall of 1982, I went to New York City on a business trip. I stayed at a friend's house. While I was there I heard about a good friend of mine Paul McClain who was channeling people's guides.

I stayed at one of my best friend's houses Mark and Geraldine. They told me how Paul McClain had these incredible experiences over a year and a half.

At first, I was skeptical and had no clue about what they were talking about. I could care less about talking with some person who had been on earth, left his body, and communicated from the other side. But I learned there was a lot more than that.

Since Paul and I were friends I wanted to check it out. I wanted to be open. Maybe something greater would come my way. I met with Paul and he told me that for a year and a half he would leave his body.

In this state, strange things would happen to him. He would hear voices and talk to guides from another dimension. He thought he was going crazy.

Over time he learned more about these experiences and came to terms with this experience. He could channel a person's guides. At this particular time in my development, I was aware only of my experience as God as a form of infinite energy.

God was light. It was sound. It was the Word of God. My realm of experience was completely different. For years Paul also had this kind of experience. He loves to meditate also.

In my first meeting with my guides, Paul was put in a trance. It was like falling asleep. He would drift away and this incredible being would come in.

His whole being would change. His voice would change to male or female depending on the guide who was present. I was completely blown away.

The information that came through was incredible. I knew it wasn't Paul because of the details of my life being described. Paul knew me but the information that came through was very personal.

Paul didn't have a clue about my life in the past. I developed a strong sense of communication with my guides. They prophesize many events in my life.

One of them was about how soon in the future I would meet this entity named Mafu. He was an enlightened Lord who would come and be channeled by a female.

I was directed to move to Calif. This indeed did come true. This experience came at a time when Ammaji wasn't even channeling Mafu. I know a lot of people have a hard time with the channeling experience.

Some people indeed go to channeling so other guides can make decisions for them about their life. But my experience was different. The information that I received was incredible.

I developed relationships with my friends on the other side. Because we are so material we have lost touch with our acute senses. Man can be aware of different dimensions.

A lot of people in mental hospitals aren't crazy. They truly hear voices. Because our society can't grasp or understand their experience we brand them as crazy.

Oracles have been around for thousands of years. I went to Paul probably 10 times in 5 years. All in all, I had an incredible time. I learned a lot about myself.

A lot of sessions were like psychoanalysis sessions. I learned how to begin to deal more directly with my life. I took the reins of my life and began to direct it more directly.

I became my teacher. I put more faith and trust inside of myself. In the past, I would look at teachers for my guidance. I began to look at myself for my inner guidance.

I learned that God helps those who first help themselves. Below is a small excerpt of my first meeting with Paul.

There are no accidents. All things which come to pass are under the will of the Almighty. The one who is of good heart and good will and an open heart will find there is no end to the workings of the Almighty.

There is never a time when your amazement will cease at the wonder of the Almighty. Always there will be new and uncharted borders old things will fall away and new and brighter greater things will come to pass.

A time will come when all things all present consciousness and awareness will fall away to bear a more complete and new state of conscious awareness. And the old falling away will feel much like death

and the new well fell much like a rebirth into the divine kingdom. It is always this way in the workings of the great God. There will never be a

time for one who is of good heart and open heart and goodwill when love for this creator will cease.

There will be times when you wish to thank and times when you wish to hate and times you wish to cease your existence for the pain of longing and times when would wish your existence to go on forever and times you feel neglected and times you feel the favorite son of the almighty.

The Lord Almighty will move your experience itself to make fall away all present understanding. You must not fear this death for beyond this death of the sort is always new life as you have learned many times to this point.

At times your love will be strained and felt as though it is being tested. This will be given to you by the Lord Almighty. And at times it will feel as though you can't make any step without the sense of grace behind even the smallest of things that you do.

There will be times which come which you will ask yourself where have my step arrived. And at these times you must remember you have been guided precisely to the point where you have found yourself by the workings of the almighty divine father.

Your faith is strong for you are of goodwill and a good heart and open heart.

You are this way because the Lord has given this to you. And yet it is time as it is always is time for an ever-strengthening bond an ever greater love, an ever fervent desire going more in each period of more and more feverish love which enabled you to carry and be about the service of the father.

For in all your doings you must request not simply know but request that you may serve that your life may be of service that your life may be given purpose in each moment the service of the almighty.

And in each moment you must ask for knowledge that you are not alone for it is not enough to know it but it is more to ask

And having asked to thank and having thanked to asked again and to offer yourself in that way which the Lord would have yourself serve.

Your will and the Lords will be of the same intent. For it is of the Lord's mercy that you are allowed and all are allowed to be fulfilled in any way which they choose so long as the love between the two remains the important thing.

But those are truly blessed who find it within themselves to have this request of service in the way the Lord would have you serve. This is truly a blessed thing. For even to come to this understanding is no small thing.

This is perhaps the greatest level of human existence. For when the almighty has given all free will to embark upon any road that they so choose and one with their will by the grace finds it within themselves to surrender their will to that of the almighty regardless of the consequences for in the surrender is the fulfillment.

This is no minor thing nor may all even do this thing. But those indeed are fortunate who have such a blessing to find themselves in this position.

My child, you are in such a blessed state. You must always remember to be humble before God, humble before the master, and humble before the servants of the Lord's will.

Giving always from your heart, from the desire to be one with the greatest thing. I am Richard who has been called the lionhearted. And you and I are part of each other.

Indeed it may be said that you and I are the same indeed it may be said that at one time we were not apart but at one time we were the same being but as time continues the soul finds in its multiple parts different aspirations.

Your aspiration has its duty here while mine has my duty elsewhere. We serve in our ways as the Lord would have us serve. I here and you here.

Kali Rodriguez

I first met Kali in India in 1971. We hitchhiked with Kathleen Cook and Tess Davies from Kenya to South Africa.

To this day I wonder why didn't we fly but it was an incredible adventure. Read the chapter travels in Africa. I first learned how to cook Indian food from Kali.

She at various times became Maharaj Ji's cook. Indian food at that time was very exotic and different. Kali taught me the ropes. She taught me the main concepts.

I remember Kali teaching me how to cook dal. Dal is one of my favorite comfort foods.

There is a step where you get a cast iron pan heat some ghee (clarified butter) and place cumin seeds in the pan. The cumin seeds will begin to pop and the room will be filled with this incredible smell of the roasted cumin seeds.

You then add chopped onions, garlic, tomatoes, ginger, and dried chili peppers. This step is called making the chank. You sauté this until the mixture turns golden brown.

When it does this mixture is poured into the dal and makes this incredible sizzling sound. You have to be careful to use the lid to cover the dal so you won't get burned.

Anyway, I have made this probably hundreds of times and I have never duplicated that sound. Now I'm a good Indian cook but Kali has taken it to a higher level. I still remember that sizzling sound in my mind.

Kali has a love and adventure for life. She was a great travel partner. She was easygoing and had a great attitude.

It was an amazing journey. Kali's Grandfather was president of Mexico at some time. Her Mom danced with Ester Williams.

I stayed at Kali's Mom house in the seventies and she was a great host. I could see in Kali a lot of her Mom. This house was at the tip of Baja. At that time this part of Baja was relatively unknown. Not today.

Kali had a great singing voice. She played the guitar and sang these incredible songs. I feel meditation brings the soul to the surface.

When she sang I could feel the sweetness coming from within her. When I think about Kali I can hear her singing.

She had this haunting effect much like the Irish singers such as Enya. Music if done properly is a manifestation coming from God.

I have nothing but great memories of Kali. She will always be dear to my heart.

Krishna Das-Hanuman Chalisa sorry but the lyrics are too long to be posted.

Kathleen Cook

I first met Kathleen aka Cookie in Prem Nagar ashram in 1971. I was only 18 years old. Kathleen told me a beautiful story that occurred only a few months previous.

Somehow she bumped into Maharaj Ji and Bihari Singh in the streets of San Francisco. Maharaj Ji was giving a talk there. Somehow the details are fuzzy they asked Cookie if she could drive them to Los Angeles. So she borrowed a beat-up Volkswagen and had the adventure of her life. Maharaj Ji was

only 13 years old at the time.

Cookie was one of my traveling partners on the journeys in Africa. She remembers the time in taking a train from New Delhi to Bombay now called Mumbai.

The trains were super dirty and I think I had to sleep on the dirty floor. We reach our destination and we all realized that no one had the directions. I was quite young and naïve (maybe or maybe not).

I had no fear. We get into this taxi and the driver says “where do you want to go”? I said I’ll direct you there. So we drive for about 45 minutes.

I'm getting signals to turn left and turn right. At some point, I tell the driver to stop. We get out of the car knock on the door and guess whose inside Maharaj Ji and Bihari Singh.

At that time we didn't think anything about it. We had faith and at the same time meditation helps to bring up the subconscious where events like this can happen.

While we were in Bombay one day I was in Maharaj Ji's room when all of a sudden he got off his bed stood up and started to wave his hands toward one of his Initiators Asokananda.

The hair on his whole body stood up. It looked like he put his hand in a light socket. He was yelling please Maharaj Ji, stop it.

After about 20 seconds Maharaj Ji's hand fell to his side and Asokananda was back to normal. Being an eighteen kid that I was I said Maharaj do you want to zap him once more?

Maharaj Ji said sure and for just a fraction of a second, he raised his hands and put electricity back into him. Maharaj Ji was electrocuting him.

We all laughed. This was the first time that I spent close time with Maharaj Ji. Cookie and Kali were present in the room. It was so beautiful to play with Maharaj Ji and at the same time have such great respect for him.

Before we left for Kenya Maharaj Ji asked us if we wanted any holy water. Holy water is a custom in India where the master places his foot in the water.

I had only a canteen and Maharaj Ji placed his foot inside of the canteen. We all laughed. The next day we headed out for Kenya. On board, the plane was Kali, Kathleen, and Tess.

These were the three girls I traveled with from New Delhi. On board the plane we drank the water from the canteen. All of us got rip-roaring drunk.

I've been drunk before that one or twice but this was a drunk of joy. We all somehow managed to saunter off the plane.

We spent a few days in Nairobi. Tess's parents lived on the outskirts of town. Kenya was an incredible country. Parts of it looked like England.

It was so much fun traveling with Cookie. We had hardships along the journey but they didn't bother us.

I can't imagine hitchhiking through Africa today. We made it to South Africa. We spent a few weeks in Johannesburg and then Cookie was sent to Durban and I was sent to Cape Town to prepare for Maharaj Ji's visit.

As Maharaj Ji was leaving Africa he told Cookie, Kali, and me to help in his coming to San Francisco.

I flew with Maharaj Ji back to England. I remember the day after I got back Maharaj Ji was speaking to a large group of people.

I walked into the room and he stopped speaking and turned to me. He said right now my body is in England but my soul is in South Africa. It was a remarkable statement. The South African people captured his heart.

I stayed a few weeks at home and then I took the Amtrak train from LA to San Francisco with Kali. We go by the Hollister Ranch and a flood of memories comes up.

We arrive in San Francisco and catch up with Cookie. Maharaj Ji came and did a program at the University of Berkley.

I saw Cookie on and off throughout the years. She always inspired me. She loves to meditate. She also became an exceptional chief.

She cooked for many people in Hollywood. I didn't know that until years later.

My daughter Aleia lives in Ashland Oregon and we visit her about twice a year. Well, guess who moved to Ashland? Yep, Kathleen Cook.

We have seen each other a few times in the past few years. I have taken her to an Indian restaurant a few times and she came to my birthday party at a Mexican restaurant on Christmas Eve.

My Mom had Mexican food on the night I was born and it's a family tradition.

It's always a delight of being with Cookie. She lights up the room. I love her laugh. I can hear her soul coming out.

Cookie keeps up with the current events in the world so the conversation can be quite lively. We talk about old times and how

fortunate we are. I'm so glad that she is the web in my life. Cookie from the bottom of my heart thanks for all you do.

Andrea

Barbara and I have a friend named Andrea. She absolutely loves Dragons. Well as you can guess we love to spend time talking to her. Many people would think that talking about Dragons would be a waste of time.

The Dragons wouldn't think so. But within our minds, the Dragon world exists. Did you know that the mind doesn't know the difference between imagination and the external world? It's all the same.

Personally, many fairy tales have a sense of truth behind them. Can you imagine that what our physical eyes we only see about one percent of the light spectrum? Wow. Yet we think we see the world as it is.

Maybe just maybe the folklore of yesterday was based upon the mind filtering the quantum field. Fairies, hobbits, and dragons were seen in the mind's eyes. Mind you the quantum field is beyond time and space yet the mind conveyed it as the dragon worlds.

As good old Albert Einstein once said "Imagination is more important than knowledge. For knowledge is limited, whereas imagination embraces the entire world, stimulating progress, giving birth to evolution."

What is a dream? Is this world a dream? We can and go like a flicker of a candle. Have you ever had a dream that was so real you thought this event actually occurred? Once I had a dream as a kid that a toy I wanted was under my bed. It was so real. Yet when I woke up I looked under my bed.

Maybe just maybe both of them are dreams.

Kathy from Maui

This came from Dragon Tales.

Kathy was another female dragon. She was quite colorful. She had colors of pink, orange, and red. She was extremely funny. She also knew how to put wood on the fire. She was like a rebel today.

She was definitely non-conforming to the dragon's world. An interesting fact while living in Hawaii my wife and I meet Kathy. She had dragon tattoos all over her body. She also told my wife in a conversation that she came from the dragon world. Her husband drove a Charlie (motorcycle). Our society would say she was a rebel. She also had a heart of gold.

Barbara and Kathy were great friends when we lived in Hawaii. You can't tell a book by its cover. She had a heart of gold. Kathy was an incredible healer. People came from all around the world to see her. Unfortunately, she died in the early 2000s. She will always be in Barbara's and I hearts.

Hum look at the similarities

Hum look at the similarities between the characters in the first book and this book. Do we carry over personalities and traits from before? I find it interesting that little Ricky was a dragon thousand of years ago. Back then he traveled from Europe to Tibet. It took around three months. Now, little Ricky in this lifetime traveled from Europe to India carrying his surfboard.

Little Ricky knew that in India he would truly learn how to meditate. In fact his initiation was like a carrot on a stick. It was so powerful it's still his motivation today.

When we come into this world do we subconsciously remember our past adventures in life?

Where did little Ricky get the idea that he wanted to learn how to meditate at such a young age? Most of his friends thought it was totally weird and strange. Yet little Ricky could care less.

How did little Ricky get the idea to go to India and travel around the world? He was only 18 years old. Was there a guiding hand that lead him on his travels?

Both little Ricky the dragon and little Ricky the human loved to cook. They loved to try and cook ethnic recipes from around the world. Little Ricky was even born into a family that loved ethnic cuisine. By the time little Ricky was five years old he was introduced to cuisines from all around the world. Both of them got quite good at mastering their craft.

In the past Little Ricky and Little Johnny learned how to surf in Peru. Charlie the dragon introduced them to the world of surfing. In this lifetime Little Johnny first has the divine remembrance of surfing in the past. To be honest little Ricky really didn't care at first. But as soon as he caught his first wave he was hooked for life. Surfing was a huge part of his life.

Most of little Ricky's friends love to meditate. Is there a glue that ties them together? It seems like they are riding the same wave in life yet each one is riding the wave differently. Is this why there is such a grand connection between us? Does meditation truly unite all?

Why do Barbara and little Ricky still talk about dragons today with Andrea? To be honest that's about the only subject they talk about except for meditation. Is there a thin veil separating us from our past? Do these conversations directly relate to our past connections?

Take David the dragon. He was the one who discovered acupuncture. In this lifetime what was his passion? Meditation and the art and science of acupuncture. It seems like many of our passions came from our past.

Many people are opposed to channeling. Yet David introduced little Ricky to Zoran in the eighties. His entire life changed dramatically. No words can express the transformations that have occurred since then. Through Zoran, little Ricky met Shay. Both of them loved to meditate.

Shay passed away a few years back. Little Ricky and Shay still see each other today. You see you are never alone. Your friends and families and ancestors are still alive. They exist inside your heart. Are we too stubborn to see them?
